WIDE MOVEMENT FOR INDEPENDENT NATIONAL TICKET

Friends of Hoover Active in Plan to Break Away From Old Parties and Get a Business President.

WOMEN A FACTOR IN NEXT CAMPAIGN

Lack of Accomplishment in Present Congress on Reconstruction Problems Hurts Republicans.

By DAVID LAWRENCE, A Special Correspondent of the Post-Dispatch.

WASHINGTON, Nov. 15.—Presidential politics keeps on gathering momentum as the candidates, would-be candidates and their friends and boosters in this vicinity begin working above and below the surface toward the goal of 1920. But the fact that is bulking larger daily is the uncertainty that the fight will be between the Democratic and Republican parties as such. Other factors, possibly an independent ticket altogether, are no longer so easily dismissed. There is evidence that the waves of opinion that are wafted hither from the country over are not so solid for the Republican or Democratic parties, but are beginning to wonder if both have not outlived their usefulness.

Campaigns begun by such publications as the *Washington Post* for an independent candidate have attracted the attention of the politicians and the demand for a business executive, though not necessarily a representative of big business, is being interpreted by friends of the various candidates as exactly the thing which their respective idols are qualified to do.

Hoover's Friends Active. No small part of the movement for an independent candidate and a man with the business sense to manage an institution like the Government of the United States comes from friends of Herbert Hoover, former Food Administrator, and the manner in which the suggestion is being advanced indicates that when the candidates are sifted and chosen, the name of Hoover will remain.

"Friendliness to Hoover is to be found in both the ranks of the Democrats and Republicans—not the party politicians but the independent or progressives in each party. Mr. Hoover so far as is known isn't particularly a Republican or Democrat.

From the fact that he is a mining engineer and man of huge enterprises, Republicans assume that he must be of their party and must share their party's viewpoint on domestic affairs. From the fact that Mr. Hoover didn't hesitate to support the President's appeal for a Democratic Congress last autumn and that he didn't hesitate to say outspokenly that he favored the league of nations, the Democrats have derived considerable satisfaction.

Some Democrats, friendly to Mr. Hoover, think that even if he were nominated on an independent ticket, he might get the endorsement of the Democratic party.

But this as well as the general tendency at present to ignore the issue of what the issue may be later only reveals the general similarity of the Republican and Democratic parties. The party platforms exhibit little difference, and the opportunity for an independent to make a campaign on the accumulated defects of both the old parties is not denied.

Women to Be a Factor. Mr. Hoover's friends base their high hopes on the fact that he knows the subject of food and the cost of living from "A" to "Z" and that with women voting in 1920 the judgment of the people will be a factor of vital importance.

But the campaign, so far as any of the sharps can forecast at present, is not a foregone conclusion.

206 Columns In Total Paid Advertising! There was a tremendous concentration of advertising in yesterday's *Post-Dispatch*, 36-page POST-DISPATCH.

St. Louis merchants expressed their preference for "St. Louis' One Big Newspaper" in no uncertain manner with 149 Cols.

As usual, the other newspapers trailed away behind in volume, 3 out of 4 of them combined carrying only 111 Cols.

The reason: Both Home and National buyers of space realize by results obtained that "St. Louis' One Big Newspaper" reaches the worth-while buyers at ONE cost.

FIRST COMMANDER OF AMERICAN LEGION

Lt. COL. FRANKLIN D'OLIER.

PHILADELPHIA MERCHANT FIRST COMMANDER OF LEGION

Lieutenant-Colonel Franklin D'Olier was First Man Nominated in Convention at Minneapolis.

Lieutenant-Colonel Franklin D'Olier, a yarn merchant of Philadelphia, who served on the general staff of the A. E. F., was elected first national commander of the American Legion, at the convention in Minneapolis, Minn.

D'Olier was the first candidate to be nominated. He was named by the Arkansas delegation. D'Olier received 346 votes and his nearest opponent got 249.

Commander D'Olier issued a statement after his election in which he declared that the American Legion would do a great deal of constructive work during the coming year.

ent will not merely involve a program for the reduction of the cost of living, but a knowledge on the part of the candidate of the tremendous economic problems with which the country is confronted today and will be wrestling within the next few years of reconstruction. Just now some of the politicians think radicalism and the stamping out of Bolshevism tendencies will furnish the issue. But both the Democratic administration and the Republican Congress are alone on that score.

If one were asked to assess the opinion that comes this way from all parts of the country, there would be little doubt in his mind that the dissatisfaction of the country with the wasted time in Congress and the failure of the Republicans to deal constructively with some of the big questions of the day that have demanded settlement, such as a more equitable system of taxation and an equitable adjustment of the railroad problem, would be found to be equalled only by a parallel disappointment at the lack of efficiency in the executive departments of the Government ruled by the Democrats.

For years the Republicans taunted the Democrats with the cry that the latter were inefficient, but the Republicans themselves in the session of Congress that is to come to an end this month have used up many months of time and produced no constructive program of legislation. The House has had quarrels among the leaders and has been waiting on

the Senate where direct or indirect efforts to kill the peace treaty have occupied the Republican majority until there is today a good chance that all the work of the session may result in failure to get the status of our foreign relations defined at all.

Nevertheless, in the face of the obvious failures by both the Republicans and Democrats who have been playing politics most of the time in disregard of the country's demand for efficiency, and the getting down of things that the people expected to be done in these critical days of reconstruction, the booms are being launched with regularity. Many are the candidates for the presidency inside and outside of Congress.

Palmer Strong Possibility. Certain men may be said to be in the lead at this moment which, of course, may be changed altogether by convention time. Attorney-General A. Mitchell Palmer and W. G. McAdoo, former Secretary of the Treasury and Director-General of Railroads, are also among the names in the Democratic race with the gossip favoring the attorney general just now because of the forceful and uncompromising manner in which he has handled the coal strike situation.

For the Republican nomination, Major-General Leonard Wood and Gov. Frank Lowden of Illinois appear to be riding on the top of the waves of Republican popularity. Wood is a former Secretary of War and is now a member of the House of Representatives. Lowden is a former Governor of Illinois and is now a member of the House of Representatives.

For the Independent nomination, certain men may be said to be in the lead at this moment which, of course, may be changed altogether by convention time. Attorney-General A. Mitchell Palmer and W. G. McAdoo, former Secretary of the Treasury and Director-General of Railroads, are also among the names in the Democratic race with the gossip favoring the attorney general just now because of the forceful and uncompromising manner in which he has handled the coal strike situation.

ALDERMEN APPROVE DES PERES ITEM OF PROPOSED BOND ISSUE

Ways and Means Committee Favors Clause to Provide \$9,470,000 for River Improvement.

The Ways and Means Committee of the Board of Aldermen has approved the item in the proposed bond issue providing for \$9,470,000 for the improvement of the River des Peres, making 12 items of the bond budget to be approved. Those yet to be considered are for \$2,000,000 for the construction of municipal terminals and the establishment of a municipal dock at Victor street, and \$1,700,000 for the construction of an approach to the free bridge.

Baxter Brown, chief engineer of the Alton & Southern Railroad, which connects with the east approach, has been asked to appear before the committee Tuesday and explain what he meant when he said his company would make use of the bridge as soon as it is in the hands of public ownership. He has given city officials no intimation of how he proposes to use the bridge. He made the statement to the Chamber of Commerce.

THE COVENANT of the "League of Love" will be read at the St. Louis Convention of the American Legion, Nov. 15-16.

CLERK GETTING \$2500, CITY EMPLOYEE 22 YEARS, DISMISSED

President of Board of Public Improvements Lets Two Men Go Over His Protest.

As a result of the Efficiency Board's investigation of needless expenses at the St. Louis Convention, Edward J. Carroll, clerical employee of the Board of Public Improvements, was dismissed yesterday by President Kinsey, over his own protest.

Carroll was getting \$2500 a year and Carroll \$1650. Alonzo Barr, efficiency expert, who made the investigation, reported that they were not needed, and recommended that they be dispensed with. Kinsey admitted that he could get along without them, but thought he might use them if the "bond issue" could be carried. Besides, he said, they had been working for the city 22 years, and Carroll eight years.

Chairman Hertenstein of the Efficiency Board replied sharply that if men were to be kept on the payroll out of sympathy, or because they might be of use some time, the whole investigation might as well stop, and Mayor Kiel upheld him.

WEALTHY CONTRACTOR SUES TO ANNUL SON'S MARRIAGE

John B. Westermeyer Claims Son Was Mentally Incompetent at Time of Wedding, Oct. 10.

Suit to annul the marriage of his son, W. A. Westermeyer, 24 years old, to Florence Gill Westermeyer, 4225 Gresham street, was filed yesterday by his father, John B. Westermeyer, 3615 Junata street, a wealthy contractor. He alleges that at the time of the wedding at Alton, Oct. 10, the son was not mentally competent to know what he was doing. The young man is now at the city sanitarium.

The day after the Alton marriage, which was performed by a Justice of the Peace, a second ceremony was performed by a St. Louis priest.

A friend of Mrs. Westermeyer's called up the *Post-Dispatch* today to say that Mrs. Westermeyer intends to contest the suit. Her husband, it was stated, was merely suffering from a temporary nervous ailment brought on by his war service. Three days after his marriage he was taken to the sanitarium.

W. C. T. U. ADOPTS PLAN FOR JANUARY DRY CELEBRATION

Continued From Page One.

have a membership of 1,000,000 by 1924, with one honorary member for every regular member in every local union.

Miss Gordon also suggested the opening of a training school for temperance workers at Evanston, Ill., and the establishment of an Americanization center in New York City. She also advocated close co-operation with church organizations and missionary societies "because of the paramount problem of defending missionary countries from the devastating liquor traffic."

Another suggestion of the president was that "scientific statements showing the true nature of beer be given added press, poster, pulpit and platform publicity." "The liquor interests," she said, "will continue their well-planned campaigns to weaken our prohibitory laws. Let us, if necessary, purchase newspapers and space to keep before the people the findings of 'moussu scientific men and physicians concerning beer.'"

She also said the strong pronouncements of prominent labor leaders concerning the prohibition should be widely circulated among wage earners, and she expressed the hope that all states would inaugurate an annual temperance day in the public schools. "Temperance day" is now a school feature in 14 states.

Miss Gordon urged that the organization continue to fight "booze medicine and tonics" and discourage the use of alcohol as a therapeutic agent. In the opinion of scientists, she said, "medicine has reached a period when alcohol has been displaced by better medicines."

A volume of new "Jubilee Songs" was circulated among the delegates. Among these is "The Battle Hymn of the World," by Mrs. William Jennings Bryan. There is a "White Ribbon Star-Spangled Banner" and other songs are set to patriotic and popular airs. In the book appears the original text of the Lutheran hymn, "A Mighty Fortress Is Our God."

A "victory" dinner will be held tonight at the hotel, and it has been frequently pointed out that satisfaction at the enactment of national prohibition is enhanced by the fact that the celebration of victory will be in a city commonly regarded as a "wet" stronghold.

Avoid the Saturday Night Rush By leaving your SUNDAY "want" ads with your DRUGGIST during the afternoon—and get better service. He will appreciate this co-operation.

BOLSHEVIKI CAPTURE YAMBURG

LONDON, Nov. 15.—The Bolsheviks captured Yamburg, 68 miles southwest of Petrograd, yesterday, according to a wireless dispatch received here this evening from Moscow.

The day after the Alton marriage, which was performed by a Justice of the Peace, a second ceremony was performed by a St. Louis priest.

A friend of Mrs. Westermeyer's called up the *Post-Dispatch* today to say that Mrs. Westermeyer intends to contest the suit. Her husband, it was stated, was merely suffering from a temporary nervous ailment brought on by his war service. Three days after his marriage he was taken to the sanitarium.

MINERS AGREE TO NEGOTIATE FIRST IN CENTRAL FIELD

Continued From Page One.

up their buttons and renounce their union affiliations."

"I have in mind the Colorado Fuel and Iron Co., now putting into effect the same policy," Lewis resumed, "and refusing men work unless they sign away every right of citizenship. In the New River field of West Virginia the men are being brought back to work by force, without a contract and to be dealt with merely as individuals. I wonder if these operators are violating any provision of the Lever act."

Two Feels for Redress.

"In certain coal fields over the United States a state of armed terror is maintained. In the Guyon Valley the guards with Winchester and side arms are marching and brushing and beating high unto death workmen whose only desire is to endeavor to improve their condition. Our voices are too feeble to get redress; do you hear any voices in our behalf in the halls of Congress or the chambers of the Government?"

Acceptance of the proposal of Secretary Wilson for negotiation of a nation-wide agreement was announced by John L. Lewis, Acting President of the miners, at the opening of the session.

Speaking on behalf of operators outside the central competitive field, F. W. Lukens, president of the Southwestern Interstate Coal Operators' Association, proposed returning to the old policy of allowing the basic scale to be negotiated by the operators and miners in the central competitive field.

President Lewis sharply denied charges of bad faith over the coal strike and the negotiations, and William Green, secretary-treasurer of the miners' union, took exception to Secretary Wilson's statement of yesterday that a 60 per cent increase in coal miners' wages was impossible. Green said that the Federal Government should see that the miners got that much increase to allow them an American standard of living.

Erge "Public Interest."

Because outlying operators are not organized, Lukens said that no time should be wasted but that "public interest in an early settlement make it desirable to continue as in the past."

Lukens' statement immediately brought from Lewis a charge of bad faith. Charging that the operators in the outlying districts had led the miners and the public to believe that they were ready to negotiate with the miners, Lewis exclaimed:

"Ye Gods, is there no more good faith left in man? Are the mine workers of America to be the everlasting victims of bad faith on the part of the people with whom they have to deal?"

After announcing his acceptance of the Secretary's suggestion, Lewis said:

"I want to express my utter amazement at the attitude of the coal operators as stated by their spokesman, Mr. Lukens. If there is any one thing which has crystallized public sentiment against the mine workers it has been the oft-repeated cry that the outlying operators had not been presented with demands by their workers, although they stood ready and willing to negotiate a wage scale."

With Spotless Robes.

"We stand here with spotless robes ready to negotiate a scale in the various states outside the central competitive fields. Mr. Lukens proposed to the Governor of Missouri that they were ready to negotiate with the miners in Missouri, Mr. Gov. Gardner wired me in protest, and the Governors of West Virginia and other states have done likewise."

"We come in good faith in an honest endeavor to reconcile difficulties," President Lewis said, "and you, Mr. Secretary, representing the Government, propose a plan which we accept, not because it is the best plan but because the public has been told for weeks that it is the plan the operators wanted."

"The charge of bad faith comes with particularly poor grace from the mine workers," Lukens retorted. "While the country is tied up with a strike which the Government says involves a violation of their agreements by the mine workers. They have struck not only in districts where there was a possible question concerning their agreement, but they have also struck in districts where there was no question but that they had valid and binding agreements."

"I deny that statement," President Lewis interrupted, "and I challenge the truth of your assertion."

Cries of "Let's have your proof," from the mine workers' representatives followed and Secretary Wilson called for order.

"It is one thing to make a state or a district contract," Lukens continued, "and another and more difficult thing to freeze to death before a nation wage scale agreement would be made as Mr. Lewis well knows. His statements are intended to cloud the issue and hoodwink the public. The operators are acting in good faith, that is shown by the fact that the Government is with them absolutely."

Secretary Makes Protest.

The secretary-treasurer of the United Mine Workers was recognized.

"You asked the United Mine Workers some weeks ago to negotiate a wage scale covering the central competitive field," he said, "and they agreed. The operators' answer to the same request was a refusal unless the strike was withdrawn. Again we hear a refusal of the proposition made by you as a representative of the Federal Government. When will the Govern-

ment tell the operators what they must do?"

REDS APPARENTLY ENTERING AMERICA BY WAY OF MEXICO

Continued From Page One.

"The Federal Government has dragged the workers' representatives into court and told them what to do," Green said. "Every American is interested in the wage, and I thought should be upped in the minds of Federal Government officials. If it takes a 60 per cent increase of wages the Federal Government should see that they get it."

"I take exception to the statement of the chairman that the demands of the miners are impossible. Let's not prejudice the miners' case before the public before we have gone into conference."

"Our Government has treated the miners unfairly. I feel bitter in heart and soul regarding the action the Government has taken. The miners have not been given a fair deal."

B. M. Clark, president of the association of Bituminous Coal Operators in central Pennsylvania expressed amazement at the charges of bad faith in the face of the walk-out Nov. 1 "in violation of contract."

Charges Agreement Broken.

"For many years," he said, "the operators in central Pennsylvania have made contracts with the mine workers in district No. 12, which have invariably recognized the rights of organized labor, and not in any single instance have the miners kept those contracts."

Replying to Green's inquiry as to the attitude of the Government toward the operators Phil H. Penna, of Terre Haute replied that "when the operators get beyond the pale of Federal law, the Government will bring us back. We think Mr. Secretary that you have made a serious mistake in raising the old question of enlarging the central competitive field," Penna said. "We of the central competitive district are opposed to any enlargement of the field."

Mr. Wilson disclaimed any desire to impose his own viewpoint as to the method of procedure, but insisted that what the Government wanted was a speedy and general settlement.

REDS APPARENTLY ENTERING AMERICA BY WAY OF MEXICO

Immigration Service and Department of Justice Watch Movement of Radicals From South.

NATIONALIZATION IS URGED BY CONSUL

Letter Showing Association With Radical Socialists in United States Reaches Government's Hands.

WASHINGTON, Nov. 15.—Disclosures of large orders for arms and ammunition placed by Mexico in Europe were followed today by revelations tending to show that the "reds" underground line from Soviet Russia to the United States, runs by way of Mexico.

It became known that both the Immigration Service and the Department of Justice are concerned at the influx of Russian radicals and other aliens of red tendencies over the Mexican border. Furthermore, Government agents have traced much red propaganda over the Mexican line.

A letter written on Oct. 23 by Ramon F. de Negri, Mexican Consul-General in New York, to Flacia Borquez, a Mexican Senator, endorsing the principle of "Nationalization," has come into the hands of the Government, and already has been called to the attention of the State Department by at least two Senators as showing De Negri's association with "radical Socialists" in the United States.

May Cause Embarrassment. In the opinion of officials here the publication of De Negri's letter may lead to an embarrassing situation. It is known that the Senators who called the attention of Secretary Lansing to it recommended cancellation of the Consul-General's credentials.

Government investigators have reported that radicals seemed to have been first attracted to Mexico by certain so-called "ultra modern" provisions of the new Constitution. De Negri, in his letter, writes that "only Russia, by nationalizing lands, has gone further than we have."

"You probably are familiar with the statements made by George Creel to our good friend Manuel Carrion on President Wilson's views in regard to the nationalization of petroleum in Mexico," De Negri writes, asserting he believes it would be criminal to abandon the nationalization policy, mentioning especially petroleum.

"Steps are being taken in the United States by the working classes, radical Socialists, honest intellectuals, etc.," he says, "with a view not only to nationalizing natural resources, but to socializing industries in general."

The Consul-General tells of his effort to spread nationalization propaganda by translating the Mexican Constitution into English and the "enthusiasm" with which it was received by prominent socialists.

"The social movement in the United States is of such importance at the present time that from one moment to another there may be a change in the general order of things. There is a terrible dislocation between capital and labor. The conciliation conferences between industrialists and workmen have failed. Through-out the United States there is a clamor for the socialization of industries."

Government agents also have gathered evidence showing distribution of Red propaganda in the United States through Mexican sources, and this is expected to be shown publicly soon.

Secretary Lansing explains that a diplomatic inquiry had been made at Brussels respecting the placing of munitions orders by Mexico in Belgium. The Government adopted that course rather than that of a protest and is now satisfied that no shipments are to be made. The extensive orders placed by Mexico in Spain, Secretary Lansing refused to discuss, although it is known that the Government has full knowledge of them and it is expected that a satisfactory means will be found to prevent others.

FRENCH CITE GEN. PERSHING

By the Associated Press.
PARIS, Nov. 15.—Gen. Pershing is cited in the following "Order of the Army," printed in the Official Journal: "Gen. Pershing as Commander in Chief of the American forces displayed most distinguished qualities as an organizer and chief. He never ceased during decisive operations to bring aid to the allied cause by his energetic and highly developed cooperation."

Charles Beck of the 124th American Infantry Regiment also is cited. He captured 10 machine guns and killed or took prisoner 15 of the enemy.

President of Jewish Women's Council Tells of Work to Stop Misuse of the Word Jew

Mrs. Nathaniel Harris Says Stage and Comic Paper Characterizations Are Unjust.

BY MARGUERITE MARTIN.

To eliminate the word Jew entirely, except as a term of religious denomination, is the task to which one department of the National Council of Jewish Women directs its efforts. Mrs. Nathaniel Harris, national president of the Jewish Women's Council and vice-president of the National Women's Council in session here this week, asks:

"Why should the word Jew always be mentioned in connection with the criminal, the crook, the hired politician, the slyster, the usurer, the radical and all undesirables who happen to be born in the land and never mentioned except as a religious designation in connection with the Jew who has distinguished himself in some respected calling?"

"You never," she adds, "read of a Presbyterian, crook, a Catholic usurer or a Lutheran politician or a Methodist radical, yet I am sure some of these undesirables must happen to be born in families of these faiths or of other hands."

"You do not see men of the types of, say, Otto Kahn, who gives New York its only chance to enjoy grand opera, Oscar Straus, statesman, Nathan Straus, philanthropist, Bernard Baruch, Justice Brandeis, Samuel Gompers and such men, always referred to as Jews. Americans who have distinguished themselves and whom we are proud to claim are as spoken of as Jews except when there is occasion to refer to their race or religion, which is as it should be. Our Judaism remains only in our religion."

Heads Active Organization. Mrs. Harris speaks most competently of the work accomplished by the many departments of her council, and well she may, for the organization has pioneered and led the way in many lines of social service where other organizations have followed. Particularly interesting in her public addresses have been her accounts of recent work in the Americanization department.

But when I asked her to select for discussion in an interview one of the many great problems in which she is interested, she could get no farther than the one listed, "Purity of the Press," in which department, she explained, is included also purity of stage, of literature, etc. And it was very soon evident that the Jewish women's chief concern is where vulgar and impurity touch the Jewish character or offend the Jewish sensibilities.

"We resent as unfair and unjust the typical would-be comic characterization of the Jew on the stage and in the so-called comic papers. We seriously considered making the effort to legally suppress one widely circulated comic weekly for its continuous flings of ridicule at the Jewish soldier and attitude of the Jews toward enlisted during the war. As a matter of fact, I have somewhere the figures to show that the Jewish contribution to all branches of the service was large, out of all proportion to the Jewish population."

"My own gorgeous boy," she turned quickly to her dressing table and produced a photograph of a son who was indeed handsome if not "gorgeous." "I have another picture of him in his uniform, his breast just covered with medals and citations," she said, and continued, "he was only 19, but he rushed to enlist at the first call to arms."

"Perhaps Shakespeare is to be blamed for establishing a type of Jew and setting a bad example to his followers in literature," I suggested. "And yet," she responded, "the thoughtful reader can plainly discern that Shylock was the only gentleman in 'The Merchant of Venice.' What was Bassanio but a plain fortune hunter? Antonio was his accomplice. Lorenzo was anything but straightforward in his wooing, while Portia—Portia prates of mercy, she is a Christian, yet what does she do when it comes her turn to bargain?"

"Dickens, too," continued Mrs. Harris, "must be blamed for establishing a Jewish type when he created Fagin. I went to school in Toronto and in that city there lived an old lady who had known Charles Dickens intimately. She was of Jewish birth and when 'Oliver Twist' came out she was so shocked at the portrait of such a Jew and the interpretation of it being accepted that she never had come across such a character as Fagin among her people."

"Dickens replied, of course, that he did not intend Fagin to typify a Jew. He was very much concerned over what she told him of the interpretation likely to be put upon it and wrote that he intended to write another book in which he would take pains to set himself right and atone for any harm he might have done. Then, you know, came 'Our Mutual Friend' with the character of Uriah, a Jew so good that he was too good. Though Dickens meant to atone, he only succeeded in overdoing the thing."

With so many great and valuable achievements of the council to point to, it is difficult to see why a little lack of success in suppressing rough, ill-bred attempts at humor should so disturb Mrs. Harris, yet she actually had to dash quick, uncontrolled tears from her eyes as she continued to excuse and explain the origin of characteristics, short-comings as she interpreted them, attributed to her race.

"It is not for myself that I resent this attitude manifested toward the Jew today and in this free land."

MRS. NATHANIEL HARRIS.

I never come in contact with it as directed at myself. That is why I feel free to speak on behalf of our less fortunate, less protected people," she said.

Turned to Jews for Money. "Do you know the reason the Jews became money lenders?" she asked. "It was because in the Middle Ages they were not allowed to own land in Europe. Also they were not permitted to enter any profession except medicine. The rulers had Jews as physicians because they couldn't trust one of their own people where there was a chance of being poisoned. Not being allowed to accumulate property in any other form, they were obliged to keep what property they might acquire in the form of money."

"Where the landowners could depend upon their rents for income, the Jew had nothing to rely on but his money. When the nobles, squandering roistering nobles would get out of funds they would turn to the Jew. The Jew had money for two reasons, first because he was industrious and thrifty, and second because he had not been allowed to dispose of it. So, what would you have him do, but rent out his money?"

"And yet, though no stigma attaches to a Christian who has money—far from it—you know with what contempt people say 'a Jew money lender!'"

Defends Characteristics. Her grimace and gesture were expressive, indeed. "I do not deny that we have as large a class of undesirables as has any other people. But consider how the Jew has been segregated, has been obliged to live in ghettos, in restricted districts. Does not such manner of life tend to accentuate the worst characteristics?"

"It sometimes tends to develop most desirable characteristics," I remarked, and I mentioned that certain of the most gifted and intellectual of my acquaintances had come from Russian ghettos.

"That is because the Russian Jews are so inbred," she explained.

"But people say the Jews are noisy, that they are boisterous, ill-mannered, aggressive," she continued. "Is not this just the natural reaction from centuries of confinement and repression? You do not find this rudeness and aggressiveness in the third and fourth generation of American Jews."

"The Jewish people have at least the excuse of not having yet quite found themselves, while Christians who are rude and ill-bred have not that excuse."

"How do Jews regard such characterization as those, for example, of 'Montague Glass'?" I asked. "He, I believe, is himself a Jew?"

A smile broke upon her face like the sun through a cloud as she replied, "Oh, they are just funny. They are true to life, of the types he represents. His are just quaint characters. We don't mind having fun poked at us for characteristics which we know we have."

Rail Wage Agreement in Sight. By the Associated Press.
WASHINGTON, Nov. 15.—With agreement said to be practically in sight, conferees representing the four large railroad brotherhoods and the railroad administration this morning began their sixth day of deliberation on the brotherhoods' demand for revision of employees' working conditions. The main question left for settlement was the demand for time and a half for overtime by trainmen in road service.

"Laxative Bromo Quinine Tablets" E. W. Brown

BRITISH LEADER SEES DESIRE TO CURB UNIONS

Arthur Henderson Says Labor in America and England Must Be Vigilant.

Special to the Post-Dispatch.
LONDON, Nov. 15.—A desire to limit the power of labor unions is seen by Arthur Henderson, M. P., labor leader and member of the Privy Council, in the injunction against the American miners.

"It appears to me that on the workers' side the issue in the coal strike is purely a demand by the trade union for increased wages and better working conditions in bituminous coal mines," he said. "Frankly, I do not understand why the United States Government has treated the strike as an illegal conspiracy, unless it is seeking to enforce the principle of compulsory arbitration in industrial disputes."

"Evidence has accumulated lately that trade unions got him England and in a desire to limit the power of the United States. In your country you have an injunction issued against leaders of the miners and in England we have the Industrial Courts bill as a frontal attack upon some of the elementary safeguards of trade unionism."

Unlabeled Needed. "The trade unions of America and England will have to be vigilant in their attitude toward these developments. Compulsory arbitration under the present system of organization of industry is a difficult and dangerous subject to handle in the present temper of organized workers. There can be no doubt that organized labor everywhere would resist any attempt to wrest from the workers the weapon of strike. Experience ought to have shown that you

cannot legislate away the right to strike. It is better not to attempt it, for it is never a good thing to bring the law into contempt."

"As to the causes of unrest among workers in America—in fact, in both countries—workmen are striving not merely to increase wages and improve conditions, but to develop a claim to real partnership in industry and to substitute a new motive of public service, instead of private gain, the mainspring of competitive capitalism."

Recognition in England. "There is a material difference in the method of handling trade disputes in America and in England. In Great Britain trade unionism has received much fuller recognition than is intended in the United States. The savage character of the labor struggle in the United States is due to the fact that employers practically deny to labor unions the right to exist. We in England have learned what American employers have yet to learn—that trade unionism is a stabilizing factor in industry. As a trade unionist and a believer in conciliation, I watch the progress of the industrial struggle in the United States with deep interest and anxiety. My sympathies, like those of every other trade union leader, are wholly with the workers of America."

Sure-Eggs Makes Your Hens Lay. St. Louis Seed Co.—Adv.

URGES GARDNER TO ENTER RACE

A letter urging Gov. Gardner to become a candidate for the Democratic nomination for United States Senator was yesterday addressed to the Governor by Representative Frank C. Wilkinson of Kansas City, one of the administration leaders in the Missouri House of Representatives.

Wilkinson urged that the Governor's statement in his inaugural address that he never would seek another public office and his repeated statements recently that he would not be a candidate for Senator should not be permitted to stand in the way.

TOWN WITH MINES IN ITS LIMITS HAS NO COAL TO PRODUCE LIGHT

Dark Nights Follow Shutdown of Plant at Millstadt, Ill.; Strikers Get Back Pay.

Millstadt, Ill., which has coal mines inside the city limits, is undergoing lightless nights due to the shutting down of the municipal lighting plant, because of lack of coal. There is no prospect of opening the plant until the strike is ended.

Mine operators' lent unwilling aid to the strikers in Madison and St. Clair counties yesterday and today in paying them a total of about \$1,250,000 in wages, due from the two weeks preceding the strike. The mines all worked full time during that period. One mine, employing 250 men, paid one miner \$110 for the two weeks' work. That was the highest. Others got as low as \$30.

The men are denouncing out, and the very suggestion of returning to work was flouted today in St. Clair and Madison counties, where the 85 mines which supply St. Louis have been closed since Nov. 1. The men apparently are unanimous in their resolve to stay out until a new scale is negotiated.

MAJ. HENRY L. HIGGINSON DIES AFTER AN OPERATION

BOSTON, Nov. 15.—The death of Major Henry L. Higginson, banker, and founder of the Boston Symphony Orchestra, was announced today. He died at the Massachusetts General Hospital last night after an operation. Had he lived until next Tuesday he would have been 85 years old.

Henry Lee Higginson established the Boston Symphony Orchestra in 1881. Only one or two years did the concerts yield a net revenue. In every other year Higginson made up the deficit from his own pocket. The Symphony Orchestra Higginson considered his hobby. He once said it was to him what a yacht, a racing stable, a library or an art gallery were to other men of wealth. Higginson served for three years in the Civil War, was several times wounded and was discharged from disability in 1864, with the rank of Major and Brevet Lieutenant-Colonel.

BOLSHEVIKI ANNOUNCE OCCUPATION OF OMSK

Red Army Reported by Moscow Wireless to Have Taken Kolchak's Capital.

By the Associated Press.
LONDON, Nov. 15.—Omsk, capital of the all Russian Government, has been occupied by the Russian Bolsheviks, a Moscow official communication received here today asserts.

The eastern coast of the Black Sea from Yelenshik to Sooby has been seized by an insurgent army of 75,000 men operating in the rear of the forces of Gen. Denikine, the anti-Bolshevik leader on the Southwest Russian front, according to another wireless dispatch from Moscow. Soviets have been formed, the dispatch adds. The insurgents captured Mariopol, 14 miles southeast of Yekaterinoslav. Berdiansk, 45 miles southwest of Mariopol, and Alexandrovsk, 50 miles south of Yekaterinoslav. Gen. Denikine has allotted troops to suppress the rising.

SUGAR PRODUCTS FIRM BUYS 3 BARGES FOR USE IN RIVER TRADE

Craft Will Bring Raw Material From New Orleans for Conversion at Plant Here.

The Sugar Products Co. has purchased three barges of the Inco Navigation Co., which has been operating them for several years, and will put them into service between St. Louis and New Orleans to bring raw material from Cuba and the West Indies to St. Louis for conversion in the new plant which the company is erecting in Carondelet.

The barges will have no cargo of the Sugar Products Co. on the downstream trip and the company has said that it will accept the shipments of St. Louis manufacturers, destined for New Orleans or for the West Indies. The company operates its own fleet of steamships from New Orleans, and is prepared to issue through bills of lading on export.

\$1,000,000 Cotton Fire. Special to the Post-Dispatch.
LITTLE ROCK, Ark., Nov. 15.—Fire entailing a loss estimated at \$1,000,000 early today destroyed the St. Louis Cotton Compress at Eldorado, Ark. The loss included 4000 bales of cotton, a big cotton warehouse and 11 freight cars loaded with cotton. The fire was caused by spontaneous combustion in a coal bin. Joseph W. Lewis of St. Louis is president, and Sol Lande of St. Louis is secretary-treasurer of the St. Louis Compress Co.

"AT LAST ST. LOUIS HAS AN ORCHESTRA!"

So Exclaims Audience at Opening of Regular Season—Sophie Braslau Solist.

By RICHARD L. STOKES.

THERE were not a few exhilarating things about the concert at the Odeon yesterday afternoon with which the Symphony Orchestra opened its regular series for the season 1919-1920—such as a thrilling program, a big and vividly interesting audience and the admirable success won by Miss Sophie Braslau, the handsome and accomplished young contralto of the Metropolitan Opera Company. But the revelation which made the occasion electric was expressed in an exclamation heard on scores of lips after the concert: "At last St. Louis has an orchestra!"

There is little question that the Symphony Society has finally placed at the disposal of Director Max Zach, for his thirteenth season here, the most notable instrument he has yet played upon in this city. It is not merely that the present orchestra is slightly larger than any of its predecessors; it was rather the balance, the quality and the spirit of the performers which left the impression that there has been a revolutionary improvement. By the middle of the season, when the machine has settled down to smooth running order, the Symphony concert should become genuine musical events.

This year's orchestra, with its personnel of 81, is 16 men larger than last year's unhappy organization, but the figure by no means measures the entire difference. No less than 34 of the musicians were not with the orchestra last year. The reinforcement of 16 redounds chiefly to the advantage of the strings, the violins being increased by eight, and the violas, violoncellos and double basses by two men each, a total of 14 new string players. This change radically alters the orchestra's balance. Formerly the strings were swamped in great orchestral tutti, or else the brass instruments had to restrain themselves in mercy to the violins. It was not the least of yesterday's pleasures to hear the now powerful string choir sounding distinctly in climaxes which summoned all the energy of the rival wind instruments. With new leaders of the violas.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They do not injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes pays leave with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "biliousness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lary" and "heavy." They "clear" clouded brain and "pick up" the spirits. 10c and 25c.

oboes, clarinets, horns and trumpets. Director Zach feels for the first time, he says, that he possesses dependable substitutes throughout the orchestra. It may be predicted that he will gradually be relieved of the strain of watching every technical detail, and will more and more be able to give himself up exclusively to interpretation. Even yesterday, at one great passage in Tchaikovsky's Fourth Symphony, he displayed his confidence by laying down his baton and letting the orchestra speed along for a considerable number of bars. Such feats of trustfulness have not been unknown in conductors of that consummate apparatus, the Boston Symphony Orchestra. But while in the past Director Zach has at times been at the point of flinging down his baton in despair, he has never before relinquished it out of elation.

The new orchestra possesses tremendous power, the climaxes in the Tchaikovsky work falling like thunderclaps; it has a noble phony of blended instruments, and it bids fair to develop a discipline which will make it a flexible and reliable instrument under the director's touch, and a technical skill which may in time merit the name of virtuosity. Finest of all is its exuberant spirit; the former air of indifference or hopelessness has apparently given place to a cavalry-like clan.

It musicianship was displayed notably in the accompaniments for Miss Braslau's numbers. She mailed the orchestral parts from New York nine days ago, they arrived yesterday 10 minutes after the morning rehearsal had been dismissed. A summons was sent out for a rehearsal at 2 o'clock, and perhaps one-half of the orchestra was able to respond. The numbers, all of them unfamiliar, were hastily traversed so that the doors might be opened at 2. Many of the performers played the music for the first time at the concert. Yet Miss Braslau herself said that she had never enjoyed a more perfect accompaniment, whether with the orchestras of New York, Boston, Chicago or Philadelphia.

Almost a Capacity Attendance. The delay in admitting the public, due to the rehearsal, caused an impressive throng to crowd the Odeon corridor, from the doors to the street. For many minutes it was recruited by newcomers as fast as those in front passed the ticket-takers. And when at last all were seated, the auditorium was not far from housing a capacity attendance. The program began with an excellent performance of Beethoven's overture to "Leonore." No. 3, which has not been played here for several years. Director Zach has mastered this score, and he made it what it is intended to be—a pulsant drama in tones. Also, the audience heard for the first time the ringing notes of David Glickstein, the new first trumpeter, in the famous flourish twice repeated behind the scenes.

Miss Braslau, who is a New York girl, the daughter of a Russian physician, who had her training in this country, and who joined the Metropolitan in 1913, next appeared for the scene and cavatino. "Ah! quel giorno rammento," from Resina's "Semiramide." The telling elocution, and then the dramatic intensity of the ensuing song, stirred the audience to excitement. Her voice itself is an exceptional organ, deep of range, glowing of quality and so trained as to meet with ease the coloratura demands of this aria. It is still more remarkable as a delicate instrument for its historic effect, and as such it is used with taste, intelligence and feeling.

Francis's symphonic poem, "Les Zolides," followed, and gave, perhaps unjustly, an impression of staidity, in contrast to the tropical luxuriance of the music surrounding it. Miss Braslau then returned for three fine mousserousky songs, "Serenade of Death," "On the Bank of the Don" and "On the Dnyper." She might have made the first more ghastly, in keeping with the text, but there was no doubt of the success of the third song, a tremendously dramatic war chant of the Cossacks. Fancying that the St. Louis orchestra permitted no encores, the singer had not prepared an add-on number; so, after being recalled half a dozen times, she repeated the lyric, "On the Bank of the Don."

New Soloists Heard in Symphony. Last came the towering feature of the program—Tchaikovsky's Fourth Symphony, his oration upon the theme of Fate. It received not only the best performance it has ever had in this city, but in the opinion of many, the most thrilling rendition any Tchaikovsky work has enjoyed here. In addition, it seemed chosen for the opportunity it gave the new choir leaders of the orchestra to introduce themselves. There was plenty of work to test the mettle of Pelegriño Lecce of the horns and David Glickstein of the trumpets. Tony P. Sarff had a clarinet solo in the first movement, and at the beginning of the second the oboe solo gave scope for beautiful playing by Adolph Bertram, who comes from the Metropolitan Opera House orchestra. There was a passage in which the viola rang out in the hands of Hugo Oik, former concertmaster of the orchestra, and now leader of the viola section. And then there were savage climaxes which summoned the full electrifying volume of the entire orchestra. It was such a performance as one would gladly hear again, when the program is repeated tonight.

CONVICT ESCAPES FROM PRISON AT JEFFERSON CITY; ONE HURT

Second Prisoner Falls From 30-Foot Wall While Trying to Get Away and Breaks His Back.

JEFFERSON CITY, Nov. 15.—One convict escaped from the penitentiary this morning and another fell off the 30-foot wall and broke his back in an effort to escape while three prison officials raised a fusillade of revolver shots at both.

Ira Perry, a two-year convict from Kansas City got away. Harry Funk, a bank robber from Audrain County, fell from the wall and was seriously injured. The day shift guards were relieving the night shift just before daylight, when Funk who works in the prison light plant turned off the lights on the south wall, and he and Funk, who worked in the kitchen, made a break for liberty. W. C. Waters, C. H. Curry and Frank Elkins, guards, ran to the dark sector to investigate and found the two men scaling the wall. They immediately opened fire. Funk jumped and Funk fell.

You may win part of that \$1,000

You will surely get two large loaves for the one you submit in the Bond Bread Baking Contest Nov. 22nd.

Make up your mind now that you will bake a loaf of bread and submit it on Saturday morning, Nov. 22nd.

You may very well be one of the 121 women who will win prizes amounting to \$1,000.

If you are a good cook, if you are proud of your bread, the General Baking Company wants you to show them

your ideal of what a perfect loaf of bread should be.

That is why they have offered these generous money prizes to the women of this community.

Every contestant will at least get (free) two loaves of the new wrapped bread which the General Baking Company will pattern after the prize-winning home-made loaves.

This will be called **Bond Bread** because it will be guaranteed by the Bond of the General Baking Company, to possess the same pure "home" ingredients—the same home-made taste—the same crust and the same texture as the best home-made loaves which your committee of well-known local women judges will choose.

Well known local women to judge your loaf

This Committee of Judges will be headed by MISS FEALE BROWN, Dietitian Service, American Red Cross.

Mrs. Bransford Lewis, 4854 Lindell.
Grad. Boston Cooking School.
Mrs. George Gellhorn, 4366 McPherson.

Bring your loaf to the Y. W. C. A.

1411 Locust St. between the hours of 7.30 and 12 o'clock A. M., Nov. 22nd.

Or if you will mail your loaf—put on 6c in stamps—and send it before Friday, Nov. 21, 3 p. m., to the General Baking Company, St. Louis, Mo.

In every case, your name and address MUST be on your loaf.

How judges will select the 121 winners

As each loaf of bread is received, its wrapper—containing the contestant's name—will be marked with a number corresponding to a ticket, which ticket will be pinned on her loaf.

Promptly at 2 o'clock Saturday, November 22 all loaves will be laid out on tables. Each loaf will be identified by its number. The names of the contestants will be concealed from the judges.

The Committee of Judges will then pick out the 121 best loaves from all of those submitted. The women who will do this are unbiased and thoroughly representative of this vicinity. They are well-known local women who are giving their time (without compensation) to the judging of this contest. Their only reason for doing this

is the possibility that the contest may result in bringing about better bread for the people of St. Louis and vicinity.

The judges will be asked to select the 121 best loaves of bread on the basis of the following six qualities: General appearance; volume (size in proportion to weight); texture (fuffiness); color (inside of loaf); bake; flavor.

The prize-winning loaves will be taken as a model from which the General Baking Company will produce BOND BREAD. This BOND BREAD will be offered to the public after the expert bakers analyze the loaves the prize-winners submit—and copy their ingredients and qualities as modern baking science really can.

You are sure to win something—

Even if you are not among the 121 luckiest ones, you will surely receive (free) two large loaves of the new **Bond Bread** when baked. So you cannot lose, you see. Here is how the \$1000 will be divided among the contestants who submit the 121 best loaves—

\$1000 Cash Prizes

1st Prize\$100
2d Prize60
3d Prize50
4th Prize40
5th Prize30
6th Prize25
7th Prize25
8th Prize25
9th Prize25
10th Prize18
11th Prize17
12th Prize15
13th Prize15
14th Prize13
15th Prize12
16th Prize11
17th Prize10
18th Prize9
19th Prize8
20th Prize7
21st Prize6

And 100 Prizes of \$5.00 each \$500.

These prize-winning loaves will be taken as ideals, which the General Baking Company will copy and incorporate in a new loaf of bread to be called **Bond Bread**.

In their clean, sunlit bakeries (so highly praised by pure food authorities) it is possible to make any kind of bread you want to know what kind of bread you—the women of this vicinity—like best, so that they may duplicate that bread for you.

Simple rules about the contest

Simply bake your loaf of these home ingredients: Flour, Lard, Sugar, Milk, Water, Compressed Yeast, Salt. (Proportions are up to you.) Your finished loaf must weigh between 20 and 24 ounces.

No entry fee required. Either mail your loaf by parcel post—or deliver it yourself, or by messenger as long as it arrives before 12 A. M. Nov. 22.

In every case, your own name and address must be written on the outside of the wrapper containing your loaf.

About Nov. 26, the newspapers will announce the 121 prize-winners. They will receive their \$1000 cash prizes not later than Nov.

renting St. Louis were Chief Engineer W. W. Horner of the Sower and Paving Division; S. Samuelman, principal assistant engineer of the same department, and Park Commissioner Nelson Cunliff. Horner, Samuelman and Cunliff were appointed by E. R. Kinsey, President of the Board of Public Service of St. Louis, to represent him and St. Louis at the convention. Horner was elected third vice president.

Whose Word Is Better Than Your Druggist's?

Physicians, Dentists and Nurses Rely on Him—Isn't That Sufficient Reason for Public Confidence?

There are many good reasons for the confidence the public reposes in their druggist. First, he is educated to know by four years of College and Practical training. Second, ethical physicians everywhere rely implicitly on his advice. Third, his training. This faith, of course, originates and is maintained by the professional service rendered by the druggist in his calling. The druggist, therefore, admits this confidence when offering a prescription to a druggist.

Very few men can be honest in one department of their business, and the druggist is no exception. Dr. and Mr. Hyde exist very little in real life. If you trust your druggist to fill your prescription, therefore, in full fairness you must accept his word as to the quality of the goods of distant manufacturers.

To recommend an article, the druggist must, of course, know what it is, and how it is made, and this was one reason for the formation of a co-operative national association of druggists and physicians who prepare a complete line of household and personal necessities. This association is the American Druggists Syndicate, popularly called A.D.S., which boasts a membership of 28,000 druggists and physicians, and is the largest organization in the world. For 10 years these professional men meet annually for conference in order

to obtain the best formulas for its products that the combined skill and experience of its members could produce. All the articles are non-secret, strictly ethical. The ingredients in all A.D.S. preparations conform to the standards of the United States Government, and cannot be excelled in quality. As the association is strictly co-operative, its merchandise is also sold at the very lowest prices possible for the quality.

In St. Louis there are 367 druggists who will tell you that A.D.S. Household Remedies, like Milk of Magnesia, Chamber's Digestive Salts, and Tooth Paste, etc., are the best that they can find in all markets. These 367 druggists stand squarely behind every A.D.S. product with an unequalled and hearty endorsement. Such a recommendation is the greatest that can obtain, based on the scientific knowledge of tens of thousands of experts and fulfilled by the fact that the consumer must trust implicitly—your druggist.

Whenever you need a household remedy or toilet article, ask an A.D.S. Druggist to show you one. All A.D.S. Druggists identify themselves with prominent window or counter displays. Ask one about A.D.S. products. If you would trust your druggist, you will be fair to take his word about the merchandise he sells.

Announce for Monday's Selling-In The Downstairs Store
A COAT SALE EXTRAORDINARY

WE announce for Monday the greatest Coat offering of the season, comprising 578 high-grade garments and including many samples of which you will find only one or two of a kind. All will be offered at a price that is entirely out of proportion with the market values of Coats nowadays.

We present them to you with the assurance that the values are extraordinary and that you will be saving a very substantial sum by taking advantage of this special selling event, which begins Monday at 9 o'clock in the Downstairs Store.

\$27

The materials of which these Coats are made are broadcloth, kersey, silvertone, plush, kitten's-ear in the prevailing shades of Pekin, brook, brown, navy, black and Burgundy. The majority have sealine collars, some are lined throughout.

The styles, a number of which are here illustrated, include the looseback, flare style, Russian blouse backs, and belted styles, large pockets, rows of silk stitching, turnback cuffs. Every coat is cut full and is well made. And the feature which is of particular interest is the fact that there are all sizes for misses and women, as well as extra large sizes.

(Sale in Downstairs Store.)

REVIEWS OF NEW BOOKS

NEW BOOKS FOR THE WEEK
AT THE PUBLIC LIBRARY

Any of these books will be sent by parcel post to card-holders on receipt of postage, in order of application.

THE WORLD OF WONDERFUL REALITY—By E. Temple Thurston.

Companion volume to "The City of Beautiful Nonsense." Good, interesting fiction.

WHY WE FAIL AS CHRISTIANS—By Robert Hunter.

In our present society it is possible to live a Christian life according to Christ's teachings? The author considers this question, in citing the example of Tolstoy. He attributes his failure not to lack of faith on Tolstoy's part, but to the hostility of those around him.

ENGINEERING MATHEMATICS SIMPLY EXPLAINED—By H. H. Harrison.

An invaluable book for the engineering student. Arithmetic, algebra, trigonometry and calculus are presented expressly for this profession.

BOXING FOR BEGINNERS—By Wm. J. Jacob.

This book is the result of lessons given in classes in several schools and colleges. The various positions are illustrated, and as this was written during the war, there is a chapter on the relation of boxing to bayonet fighting.

TEACHING OF ELEMENTARY SCHOOL GYMNASTICS—By W. P. Bowen.

Both the practical and theoretical side of the work is given. The exercises are illustrated, and some folk dances with the music are included.

A SOURCE BOOK OF BIOLOGICAL NATURE STUDY—By Elliot R. Downing.

Prepared especially for the teacher, showing the most effective way of presenting the subject to the students. Insects, birds, trees and flowers are fully treated.

MODEL MAKING—By Raymond F. Yates.

An excellent book on model engineering. Lathe work, soldering, pattern making and electroplating are explained, and the following are a few of the models whose construction is described: Single and twin cylinder engines, steam turbines, hydroplane, electric hoist and gasoline engine. The illustrations, drawings and diagrams add wonderfully.

SOCIAL INSURANCE IN THE U. S.—By G. R. Miller.

A little book for the busy man or woman, telling of the advances in social legislation made in the U. S. What has been done along the lines of workmen's compensation laws, health insurance and old age support is briefly told.

THE JUNIORS: HOW TO TEACH THEM—By Maud J. Baldwin.

For those training for Sunday school work with juniors. Organization, equipment, programs and recreation are discussed.

ELLEN GLASGOW'S NEW NOVEL.

ELLEN GLASGOW, in "The Builders," has written a novel of compelling interest, and one that has advanced thought, if not entirely new ideas of the political situation in America today.

The story concerns a successful Virginia manufacturer, who, during the following in the footsteps of his ancestors and voting the party politics, announces his new freedom of political thought and his change from the Democracy of the South to the Republican party. The change of faith and some of his seemingly harsh views on the industrial situation, lose for him the esteem of many of his friends, and places him in a false position in society.

His wife, a social butterfly, is dead to all the traditions of her native state.

Active in war relief work and social engagements she has little time for home and less patience with her husband. When the test comes, he proves himself to be every inch a man, and she is found wanting.

Next in interest to the two principal characters of the story is the romance of the war-time tribes, who twice were near, and just missed, happiness.

"The Builders" is Miss Glasgow's first book since the beginning of the world conflict, and it is a book that will put some advanced theories—(Doubleday-Page).

USUAL BLUE RIDGE STORY.

THEL AND LAMBS DORRANCE have written the usual Cumberland Mountains romance in their "Flames of the Blue Ridge," in which Calvin Parker, the usual blue New York boy, meets "Verny"—short for Vernalis—Metcalf, the usual mountain girl, daughter of the usual king of moonshiners. Of course Parker is taken for an Internal Revenue officer, but he proves himself otherwise by getting hilariously drunk on two occasions. He has been sent to the so-called dry territory by Spencer Pope, truly a revenue officer, who has plans of his own regarding Sylvia Brainerd of New York. Parker's fiancée, which he carries out successfully, thereby leaving Parker free. A mountain slide destroys the still and uncovers a semi-precious mine, thereby permitting the Metcalfs to engage in other pursuits than the evasion of the internal revenue and war-time prohibition laws. (Macaulay.)

HOW ANIMALS TALK.

O animals talk! It is admitted they are not linguists in the human sense, but William J. Long has written a most interesting and convincing book to show that they have a way of communicating with each other, and that domestic creatures not only readily understand many words but can impart their wishes as well as their sense of danger and of gratitude and joy to their masters. The volume is artistically constructed and pleasingly illustrated. The author makes his points largely by anecdotes and many of the stories he tells are deeply impressive. It is an attractive book for a Christmas gift. (Harper & Bro.)

AN ANTI-MEXICAN STORY. The heralded novel, "Not All the King's Horses," by George Chamberlain, until recently American Consul-General at Mexico City, is an excellent piece of literature which indicates a people and the corrupt system of their Government without, however, mentioning any individuals. It is said to be based on facts and the moral is declared to rest "with your conscience."

The author dedicates the work to the Mexican people, "a vast nation," which "for 400 years a Latin incrustation has fed, sucked its blood, infected it with virus of an appalling decadence; never governed it, but ruled it with a powerful and powerful descriptive writer and the romance and beauty of the Mexican capital district live again under his pen, while the terror and savagery of the present are startlingly portrayed, presented in such a way as to have a wide appeal among those at least who have found no good at all in the Wilson treatment of this country."

The novel takes us into the life of Richard Digby and his lovely wife and three children and of Digby's partnership with his son-in-law, Rixon Ellerton. In the days of Diaz they find prosperity in the Pico mine, at the side of which Digby erects a mountain paradise—Mountain Acre. An excellent narrative is given of the noble wooing by Ellerton of Digby's daughter, Laura, half his age.

Digby's baby, Madeleine, was willful and winsome, knowing no fear. Her father loved her with abandonment; had dined into her the nursery rhyme of "Humpty Dumpty" and had illustrated it to her with an egg to the horror of her childish mind. Madeleine proved her worth in her girlhood when bandits raided Mountain Acre, gallantly helping her father escape from the place while the marauders, after having his servant and making his wife and infant, were searching for loot.

With industry paralyzed Digby became immersed in a lower stratum of the catatonic life of the nation. His wife was in a hospital, his son had gone to the world war, and Madeleine helped her father to eke out a miserable existence in the capital city while Ellerton clung to some other mining property and his wife gave music lessons. Madeleine loved beautiful things, and was loved to bear up in the face of the coarse and sordid life of the world.

With industry paralyzed Digby became immersed in a lower stratum of the catatonic life of the nation. His wife was in a hospital, his son had gone to the world war, and Madeleine helped her father to eke out a miserable existence in the capital city while Ellerton clung to some other mining property and his wife gave music lessons. Madeleine loved beautiful things, and was loved to bear up in the face of the coarse and sordid life of the world.

A BLYTHE POLITICAL NOVEL. "HUNKINS," by Samuel G. Blythe, is not only a clever political novel, but it points out the possibility for cleaner politics and more efficient government by the formation of the young men who fought in the recent war into an organization for mutual aid and civic betterment.

"Boss" Hunkins, the central figure in the story, and Tom Pendergraft of the opposing party, have been running the municipality in very much the fashion that many cities are run by the political bosses. The business men are too absorbed with their own affairs to give more than passing attention to civic affairs. Franchises and city contracts are awarded to the favored few.

George Talbot, an army captain, then takes a hand in politics, and the story is familiar with the turned soldiers into ward and precinct clubs and soon has an organization that completely overthrows the gang, and he becomes Mayor.

It is a story of the West as it is, the entire political game and works into his story many amusing incidents as well as many of the familiar political tricks of the regular ward politician, and there is a little romance that adds in a pleasing surprise. (Doran.)

"THE RIDIN' KID FROM POWDER RIVER."

THIS "RIDIN' KID FROM Powder River" is a little more than a glorious dime novel hero of the yest

PRISONERS SHOOT 2 AND ESCAPE

By the Associated Press.
LE MAR, Mo., Nov. 15.—Five prisoners escaped from the Plymouth County Jail here last night, probably fatally shooting a son of Sheriff Hugh Maxwell, severely wounding the sheriff and knocking Mrs. Maxwell senseless by a blow on the head. Two daughters of the sheriff were locked in the jail building.

for the prisoners fled. The sheriff's residence was in a section of the jail building.
The shooting and escape occurred as the Maxwell family was delivering supper to the prisoners in the jail. The prisoners took the revolver from the sheriff and his son and after locking the girls in a cell, entered the sheriff's apartments. They took a shotgun, two automatic revolvers and two sheepskin coats and then fled.

BAR MANAGER SLAIN IN EAST ST. LOUIS HOTEL

Body Is Found on Floor After Assaults, Presumably Robbers, Escape.

William Alder, 55 years old, manager of the bar in the Geary House Hotel, Broadway and Second street, East St. Louis, was shot and killed in the bar at 8:30 o'clock last evening, presumably by robbers, who escaped.

Two guests at the hotel heard two shots and ran to the barroom, where they found Alder lying on the floor with a revolver clamped in his right hand and bullet wounds in the neck and right wrist. His revolver had not been fired.

His body was behind the bar, and it is the theory of the police that he was resisting robbers when shot, as people in the neighborhood reported that they saw two men flee from the building a moment after the shots were heard.

Alder had been manager of the bar since July 1, when women were employed as bartenders. He relieved them from duty in the evening.

Delicious Paul's Pure Jams. Made from superior fruits. Buy a case from your grocer.—Adv.

BELGIUM TO KEEP GERMAN SHIPS

Court Decides 53 Craft Seized in 1914 Are Lawful Prizes.

By the Associated Press.
ANTWERP, Nov. 15.—The prize court has decided that 53 German boats, aggregating 150,000 tons, seized by the Belgian authorities in 1914 in the port of Antwerp, are lawful prizes.

GIRL IN MOTOR-CYCLE CAR HURT

Rider Suffers Serious Injuries in Collision With Auto.

Mrs. Ethel Brittain, 19 years old, of 5321 Manchester avenue, was seriously injured when thrown from a motor cycle sidecar in collision with an automobile driven by George W. Salee, 59 years old, 4317A Gibson avenue, at Taylor avenue and Papin street at 6 p. m. yesterday. She suffered a fracture of the skull, shoulder and ribs.
She was accompanying Fred Recknik, 1939 Mackland avenue, who was driving the motor cycle. They were eastbound in Papin street when the

vehicle was overturned by the auto going south in Taylor avenue. Salee's machine was overturned also, but neither he nor Recknik were injured.

To Heal a Cough
Take Hayes' Healing Honey, 50c per bottle.—Adv.

Handley-Page to Take Air Again

By the Associated Press.
MOUNT JEWETT, Pa., Nov. 15.—Vice Admiral Kerr, commanding the Handley-Page airplane which left

Minneapolis yesterday for Chicago and was compelled to land because of a defective water connection, here, will take the air again this afternoon for Cleveland. There a supply of oil and gasoline will be taken on, and if the weather holds the flight to Chicago will be continued.

Two Railroads Face Liquor Charges

By the Associated Press.
TOLEDO, O., Nov. 15.—Indictments were returned by a Federal grand jury here yesterday against

two railroads on charges of transporting liquor from one state to another, in violation of national prohibition laws. The Cleveland, Cincinnati, Chicago & St. Louis and the Toledo, St. Louis & Western are the companies named in the indictments.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids in assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher
In Use For Over 30 Years
THE CASTORIA COMPANY, NEW YORK CITY.

ADDITIONAL ADWEAR Soles Last Three Times Longer

The Story of One Pair of Shoes

It costs you from \$1.25 to \$2.00 to have a pair of shoes half-soled today.

Children run through ordinary soles in a few weeks.

You can buy the same shoes you are accustomed to, with the ADWEAR Process leather soles, and you will find it hard to wear these soles out. The ADWEAR Process of vertical thread plugs in ordinary soles gives the Additional Wear.

Adopted and applied by many leading shoe manufacturers.

Shoes with ADWEAR Process soles are sold by all leading dealers.

Ask Your Dealer to Show You These Shoes, or write us for name of nearest dealer.

Adwear Process Sole Leather Machine Co.

IMPORTANT: Two hundred thousand wonderful circulars have been distributed throughout St. Louis and suburbs, containing facts of the sale. We are setting the pace of value-giving in St. Louis. Our competitors are keenly watching our efforts at price-making and undoubtedly will meet or undersell us on some of the advertised articles. This is done in an effort "to spike our guns."

We wish to state to our patrons that *we will not be undersold* and assure you that Nugent's reliability is dependable and that every item in our circular that has been cut by our competitors in Sunday's papers to lower than prices quoted in our circular will be met here Monday morning regardless of our previous quotations. Please take small packages with you.

STOCKS MEET SELLING AFTER FIRM OPENING

Steels and Other Industrials Are Lower at the Close in New York.

Closing Prices on Liberty Bonds at New York.

By Leased Wire From the New York Bureau of the Post-Dispatch.

Industrial shares declined again today, after a firm opening. The steel market, early losses of 2 to 4 points being recovered at the close. The advance in railway shares did not continue.

"Exchange" London, Paris and Berlin ended the week by falling below the previous low level of depression. The German mark going at 2 1/2 cents.

Week-end mercantile reviews reflected a feeling of relief at the stopping of Wall Street speculation, but business failures have been more numerous than in any week since last spring.

Coming after the week's heavy liquidation the bank settlement was not altogether what Wall Street had expected. The loans account was reduced \$45,000,000; but the reserve credits of the banks at the New York Federal Bank which last week increased \$43,000,000 have this week been cut down \$50,000,000; that is, the balance of the Federal Reserve Bank is \$43,000,000 less than it was at the close of the week.

Recent unheeded warnings of the Federal Reserve Board and other financial interests against unrestrained operations in the stock market culminated this week in one of the most drastic and liquidating movements since the close of the war.

Speculative shares broke 10 to 20 points, losses in several conspicuous cases being far in excess of the range. Call money rose to 30 per cent, a rate unprecedented since the panic of 1907, and the money market was swept literally bare of time funds.

Taking the market's lowest quotations as a basis, the week's decline in stock prices was about 10 per cent. The decline was assisted by a confident and aggressive short interest which sought out the more vulnerable spots in the list, with disastrous results to numerous pools and other professional investors.

The net result left the technical situation much improved, however, standard stocks passing from weak to strong hands, while excessive brokers' loans suffered material curtailment.

Partial readjustment of the market occurred later on buying of rails, especially in the case of the Pennsylvania, at events at Washington are assuming form favorable to that branch of the list.

DETAILED REPORT OF DAY'S TRADING IN WALL STREET

NEW YORK, Nov. 15.—Latest phase of the labor situation and another slump in foreign exchange, which has been the chief factor in the selling of profits made on the recent advance, were the main features of the day's trading.

Pressure was again most effective in speculative issues which made extreme declines of 10 to 20 points, a second day of the improvement, but fell back when the market turned for stocks. Moderate rallies in the case of the closing was heavy, gains accumulated \$40,000,000.

Chicago Stocks Close.

Conditions Ideal for Fine Display of Intercollegiate Football at Washington University Stadium—Record Attendance Is Predicted by Local Management.

THE football focus of Missouri Valley interest, this afternoon, will be at Francis Field, where the Washington University and University of Missouri football eleven meet in a game which will have a direct bearing on the State and Conference championships.

Perfect conditions for local contest prevailed. The weather is ideal for football, the field is in good shape, each team will be supported by well-organized bodies of followers, and the "form" is such that either team can be picked to win the contest. The advance ticket sales have indicated that the game is attracting more attention in this city than any collegiate contest since 1907.

Neither coach would directly predict a victory, probably because of professional modesty; but at the same time each one indicated that his team had been directly pointed for this game and was expecting to play better football than had been shown in any of the preceding games.

When the Pikers take the field this afternoon they will play on a dry, firm field for the first time this season. Each one of their contests has followed a rain which rendered the ground slow or worse. Inasmuch as the local team employs an open style of attack to a great extent, the improved field conditions were welcomed by Coach Rutherford.

Lineups of Both Teams Changed. There will be a number of lineup changes on both teams, according to the starting arrays as given out by the coaches. Kremer, Zink and Whitley will be the new faces on the Pikeaway squad. Zink, who replaces Kurrus at left guard, played one-half of the Drake game and looked good against the Bulldogs. Kremer has served as understudy to Marquand at center all season, but today goes to left end in place of Hausladen. Whitley will fill the right halfback role because of the shoulder injury suffered by George Berger last Saturday.

Coach Miller gave out a queer lineup today. He announced that three of his star players, Quartermaster Stanowski and Halfbacks Edwards and Collins, would be unable to get into the game today at all, because of injuries. However, Miller seems to be holding some other members of his first string squad on the bench. He stated that Lewis must start from end and sent to quarterback, being replaced on the wing by Ruth. If this shift is not made, Packwood will call signals.

Other Stars Out of Lineup. Peterson, the fast-running halfback, is not mentioned in the lineup at all, although "Big Boy" Peterson has been the star of the Pikeaway player's name on their lips for the past two weeks. Miller names Sylvester, a substitute, as the player who will start at left halfback. Washingtonians think that Peterson will be in at this position.

Koh, the player who started the season at center but was then replaced by Hardin, will be placed in the center of the line at the start of today's game. At right tackle King is scheduled to replace Blumer, another regular. John Miller expects to stay off the Pikeaway defense with this lineup or whether he is holding his regular for reserve strength is a secret. Certainly it comes as a surprise.

The Missouri squad, consisting of 34 players, the coach and manager, arrived in the city at 1:40 p. m. yesterday and immediately went to a West End hotel. Miller announced that his men will take a walk this morning in order to keep in shape.

Pikers Held Final Drill. The Pikers went through a long signal drill yesterday. It had been expected that the red and green men would be let off with a few conditioning stunts, but Rutherford ran them through signals until it was 1:30 p. m. Conzelman placed himself in front of the goal posts and bombarded the signals with drop kicks for a half hour.

According to old Pikeaway alumni there has been more betting on this game than any Washington contest in their memory. Yesterday over \$3000 student money was placed, while \$1500 more was collected at a mass meeting to be placed today.

There are also a lot of wagers being made downtown among the alumni of the two schools. One broker placed \$4000 with several parties that the local eleven would win. It is expected that a great deal more Missouri money will be offered when the main part of the Columbia rooting force arrives this morning. The bets are being placed at even money, with some overexuberant Tiger followers now and then offering 5-4.

Tiger Band and Rooters Here. About 115 students from the State school arrived yesterday and 200 more are expected this morning. The band, which is being sent here by student subscription, will also arrive this morning. An automobile parade of Missouri supporters will be formed at the Belmont Station and parade through downtown streets. The Washington automobile parade will be started at 12 m.

Arthur Eilers, who is in charge of the seat sale, announced this morning that the entire Washington reserved section had been sold out and that only a few more Missouri reserved seats remain. All of the boxes were gone two days ago. The field has been roped off in order that the overflow can be cared for on the field should any additional space be necessary. The Francis stadium, with the extra stands, will accommodate 12,000 persons. The Missouri adherents will be seated in the north stands, while Washington followers will occupy the south side.

Today's contest is the nineteenth meeting between two schools, the first one having been in 1894. Missouri has won 12 times; Washington, 12; and there has been one tie. The last Washington victory was in 1915, when the Pikers gained an unexpected 13-0 verdict at Francis Field.

Five Still Tied In Three Cushion Billiard Tourney

Hugh Heal, Who Is Out of the Running, Wins Two Victories in One Day.

CLEVELAND, O., Nov. 15.—The five-cornered tie for first place in the three-cushion billiard championship of the world is again on, and seems likely to continue so, at least until the later games of the tournament are reached. None of the leaders meet today and all should keep their positions.

Pierre Maupome of Milwaukee and Otto Reisel of Chicago, two of the leading quints, turned in their fifth victory yesterday. Pierre Maupome defeated Jess Lean of Cincinnati in a hard-fought match this afternoon, 5 to 4, in 15 innings, while Otto Reisel won an evening game from Charles Otto of Brooklyn, 5 to 3, in 13 innings.

Hugh Heal, the Milwaukee entrant, was victorious in two games. In the afternoon he met and defeated Byron Gillette of Buffalo, 5 to 2, in 49 innings and in the evening he trimmed Tiff Denton of Kansas City, 5 to 3, in 69 innings. Heal has little chance for the championship, but the way he's playing now it seems likely he will cause a lot of trouble to several of the would-be leaders.

Today's games are: Heal vs. Jackson, Denton vs. Gillette, Reisel vs. Lean, Maupome vs. Otto.

Don't say NO. If you haven't found that HOME try a Post-Dispatch Want Ad.

A Burglar-Proof Lock Is Easier to Pick Than a Football Winner

A LARGE number of "annual struggles" being on today's football list, form based on comparative scores will probably fall below the \$90 per cent standard, maintained under pre-war conditions.

In many cases there is really no convincing basis for the naming of one team over another.

Among the form favorites selected today, some have been credited with the best chance, although only three or four points appear to weigh in their favor in a comparison of scores.

Below will be found the more important matches of today's schedule, those designated by asterisks having the better chance to win, according to past performances:

LOCAL TEAMS.
*Washington vs. Missouri, at Francis Field, 3 p. m.
*St. Louis vs. Drury (at Springfield).
*Central vs. McKinley, at High School Field, 3 p. m.
*Cleveland vs. Yeatman, at High School Field, 1:30 p. m.

Timely Topics.
"When my alarm clock sounds," said Huff.
"I cuss a streak of woe;
And wish that I were rich enough
To tell it where to go."
—Luke McCluke.

"THE blamed thing wouldn't care, I know," responded Mr. Brown.
"If you should tell it where to go,
'T would cheerfully run down."
—Newark Advocate.

No matter in what part of town you wind him up, Big Ben Next morning heedless of your town will ring you up again.
—Philadelphia Public Ledger.

AND if its loud insistent sound should grate upon your ear,
Just dash it madly on the ground
And wind up its career.

Alarm clocks are all right. It's the way they disturb your morning slumber that makes them unpopular.

That's It.
THIS bloomin' alarm clock But if I don't wind it,
'T will do me no harm.

First Aid.
Many a guy has had his life saved by the alarm clock going off just as the villain was about to plunge a carving knife in his back.

Between the American League and the League of Nations it looks like a busy season for the dove of peace.

It's a Pipe.
Judging by some of the stories coming out of New York in regard to that third league somebody has been lifting the lid on the drug act.

In other words the guy that said Edsel Ford would back a club in Detroit and Harry Sinclair one in Pittsburgh spoke a pipe full.

Pipe's Out.
IT is a true and trusty scribble With nothing else to do.
He is a member of the tribe That rolls the old bamboo.
He rolls a pipe and prepares An iridescent dream.
And gets a bunch of billionaires To back his lovely scheme.

An outlaw league is what he needs To boost his lovely game,
And so instantly he proceeds To organize the same.
He gets his billionaires in line To back his lovely scheme,
And just when things are going fine His bloomin' pipe goes out.

The Sky's the Limit.
The Federal Fair Price Committee in Chicago has abandoned the attempt to fix the maximum price of sugar. "Always somebody taking the sweetness out of life."

Central to Play McKinley Eleven In Feature Game

Interscholastic Battle Between Pair Today Is Important One for Both Teams.

The football teams of McKinley and Central High Schools are scheduled to meet in the second and feature game of the Interscholastic League on the scholastic campus at Grand and Laclede this afternoon. In the first tilt, which starts at 1:30 o'clock, Cleveland and Yeatman will meet in a college championship.

Neither eleven has won a game this season against title competitors.

The clash between McKinley and Central is important to both aggregations. Central to date has won two games, defeating Yeatman and Cleveland, while McKinley has a record of 1-1. A victory for the Mid-City men today will tie them with the Soldiers for the lead and make the Turkey day contest between them a real championship affair.

However, should McKinley win, Coach Crosby's men would be tied with Central for second, making a three-cornered tie for the title possible at the end of the season. This would mean that Central defeat Yeatman and McKinley would remain game from Yeatman.

Scores Favor Walker's Men.
"Dope" on the game tomorrow favors Central through the Cleveland game. Walker's men won from the "baby member" of the league, 15-3, while McKinley was able to win by a 13-6 score. This gives Central a margin.

There is a possibility that Coach Walker will be forced to replace Fischer at left tackle, while Kallenbach and Helson, McKinley stars are injured, but will likely be started in today's tilt.

The clash between Yeatman and McKinley should be interesting. Cleveland, until it went up against Interscholastic League competition, had compiled a great record, but since has lost to Solder, McKinley has been beaten by Central and Solder on the Solder game, the North Riders figure one touchdown better, while Coach Hill's team scored 13 points against Solder, while Cleveland was blanked.

The probable lineups:
Yeatman: Left tackle, Schlapert; Left guard, Starbuck; Center, Schlapert; Right guard, Starbuck; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert; Tackle, Schlapert; Guard, Schlapert; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert.

Central: Left tackle, Schlapert; Left guard, Starbuck; Center, Schlapert; Right guard, Starbuck; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert; Tackle, Schlapert; Guard, Schlapert; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert.

Badgers Expect To Defeat Ohio
Both Teams Will Resort to Passing Game, It Is Predicted.

MADISON, Wis., Nov. 15.—Madison today entertained thousands of visitors at the Western Conference's headline football contest between Wisconsin and the undefeated Ohio State eleven.

That Wisconsin is a team of power has been proven and football men generally felt that the Buckeyes faced a hard battle. Pre-game speculation was that both teams would resort to a passing style when Forward Walls proved impregnable, with a punting duel between Sundt and "Chick" Harley, Ohio State punter.

The game also will be an "aerial" affair in another sense, a follower pointed out, six air service veterans of the war, who were in Wisconsin attempting to stop the flying Harley, "Big Ten" conference star.

Main hopes of the Badger followers seemed pinned to their wing men, Weston and Meyers, due faith in the five center men being expressed. Weston and Meyers were expected to star in picking off Harley's passes and dumping backfield runners.

Ohio State's players were reported in excellent condition, but they missed connections in Chicago yesterday and arrived here too late last night for a final workout. The Badgers went through a snappy workout and their backers said they were ready for their season's hardest encounter.

The probable lineups follow:
Ohio State: Left end, Weston; Left tackle, Braden; Left guard, Braden; Center, Braden; Right guard, Braden; Right tackle, Braden; Quarterback, Braden; Right halfback, Braden; Left halfback, Braden; Fullback, Braden; End, Braden.

Wisconsin: Left end, Weston; Left tackle, Braden; Left guard, Braden; Center, Braden; Right guard, Braden; Right tackle, Braden; Quarterback, Braden; Right halfback, Braden; Left halfback, Braden; Fullback, Braden; End, Braden.

30,000 TO SEE COLGATE AND SYRACUSE BATTLE
SYRACUSE, N. Y., Nov. 15.—Syracuse and Colgate, both ready for a gruelling struggle, presented their strongest lineups for their annual grudge contest today.

The Archbold stadium had been enlarged to seat more than 30,000 persons—the largest crowd that ever witnessed an athletic contest in Central New York.

The probable lineups:
Syracuse: Left tackle, West; Left guard, West; Center, West; Right guard, West; Right tackle, West; Quarterback, West; Right halfback, West; Left halfback, West; Fullback, West; End, West.

Colgate: Left tackle, West; Left guard, West; Center, West; Right guard, West; Right tackle, West; Quarterback, West; Right halfback, West; Left halfback, West; Fullback, West; End, West.

HARVARD SUBSTITUTES TO FACE TUFTS TODAY
CAMBRIDGE, Mass., Nov. 15.—Harvard coaches decided to send in several substitutes in the game with Tufts today, thus conserving first-string players for the Yale game next Saturday. Coach Whelan has reorganized both his team and the style of play. The Tufts players were confident that they would give the crimson a hard fight.

The probable lineups:
Harvard: Left tackle, West; Left guard, West; Center, West; Right guard, West; Right tackle, West; Quarterback, West; Right halfback, West; Left halfback, West; Fullback, West; End, West.

Tufts: Left tackle, West; Left guard, West; Center, West; Right guard, West; Right tackle, West; Quarterback, West; Right halfback, West; Left halfback, West; Fullback, West; End, West.

Regan to Box Either Pal Moore or Herman In Bout Here Dec. 2
TOMMY SULLIVAN, president of the Future City A. C. announced yesterday that he had signed Charles Cruise (Kid) Regan, of St. Louis, to meet either Pal Moore, of Memphis, or Pete Herman, of St. Louis, in a boxing bout at the Coliseum, Dec. 2.

Regan has met both Moore and Herman before. He engaged in one bout with the Memphis claimant to the title last winter, and although outpointed made a good showing. His two contests with Herman were thrillers and in the last engagement the local fighter had a slight edge over the title holder.

St. Louis U. Coach, However, Tells Correspondent He Expects to Win by Big Score.

SPRINGFIELD, Mo., Nov. 15.—"In tip top condition" was the pronouncement of Coach Rademacher when he and his 25 Jesuit warriors from St. Louis University landed in the Queen City of the Ozarks, last night.

"We are in as good condition as we have ever been for a real battle and will be satisfied with nothing less than a victory by a wide margin."

Local football fans, however, are expecting one of the prettiest gridiron arguments of the year when the Panthers clash with their light-Catholic opponents.

In the Drury aggregation the Billikens are meeting a team that employs the open game to perfection. They have a similar style of attack. It is expected that the Panthers will open up with an array of forward passes, end runs, tuck-around plays and trick formations which will surprise the confident Billikens.

Drury Take Three Weeks.
The Panthers took but a light workout last night, just a few minutes of practice for Baldwin. They will take no chances on losing the battle tomorrow. Three weeks of idleness have left the Panthers in poor condition for a long, stiff struggle.

Betting in the Panther camp is light. Very little money is being staked and on that was hit the Drury supporters are asking two-to-one odds. Some little money is being staked on the St. Louis side.

The lineup, it is announced, will be as follows:
Drury: Position, St. Louis U. Left tackle, Schlapert; Left guard, Starbuck; Center, Schlapert; Right guard, Starbuck; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert.

St. Louis U.: Left tackle, Schlapert; Left guard, Starbuck; Center, Schlapert; Right guard, Starbuck; Quarterback, Schlapert; Right halfback, Schlapert; Left halfback, Schlapert; Fullback, Schlapert; End, Schlapert.

Conzelman Ranks High.
Conzelman is not the whole Washington team, by any means; but he is the most colorful object on the field, and unless something happens to him, his name, owing to the nature of his services, will probably be more frequently in the mouths of the spectators than that of any other player.

This is a star of first magnitude. Old Grads, who went to sneer, came away glowing with enthusiasm after viewing his performance.

The game today may do something for Conzelman—clinch his title to the mythical quarterback berth on the All-Valley Conference eleven.

Missouri, however, will try hard to keep Conzelman down. The Washington at Columbia for some time has been "Stop Conzelman and the Valley title belongs to the Tigers."

And Conzelman may be stopped. This can happen in several ways. Tiger punters may spoil his remarkable record for running back kicks by punting out of bounds, instead of down field. The superior Missouri end may get down field in time to stop his dashes from the kickoff. The stronger Missouri line may crash through and break up his forward passing and kicking game.

But, if his interference can give him a start the enemy will hardly be able to prevent this bird from setting loose for a scoring dash at some point of the game.

Conzelman has made a really remarkable record. The Post-Dispatch has kept charts of Conzelman's performances in several local games and the story of his performance reads like a dream.

Summing it up, Conzelman, in conference games against the Aggies (who tied Missouri) and Grinnell was directly responsible for an advance of 1317 yards, or 13 lengths of the gridiron, roughly speaking.

Below will be found the figures to prove it, indicating the yards gained, the number of tries and the character of the play used:

WASHINGTON-GRINNELL GAME.
Runs, Rushes, Punts, P. Passes.
10 25 35 19
15 30 32 12
40 50 35 0
42 20 30 0
14 2 30 20
23 3 33 19
9 23 0
5 15
20 19
129 88 270 309
Total yardage advanced—647.
Total advance retaining possession of the ball—347.
Total yardage gained—277.
Average return of kicks—23 yards.
Average punts—35.2 yards from scrimmage line—33.8 yards.
Completed seven out of 12 passes.
Average advance of pass—14 yards.
Average advance of pass—14 yards.

WASHINGTON-AGGIES GAME.
Runs, Rushes, Punts, P. Passes.
10 25 35 19
15 30 32 12
40 50 35 0
42 20 30 0
14 2 30 20
23 3 33 19
9 23 0
5 15
20 19
129 88 270 309
Total yardage advanced—647.
Total advance retaining the ball—347.
Total yardage gained—277.
Average return of kicks—16 yards.
Average punts—37 yards.
Average forward pass—19.4 yards.
Completed five out of 11 passes.
All this was accomplished in 120 minutes of actual play, an average advance of 10 yards per minute due to Conzelman. Yes, he, it sounds dippy, but the "dope" is there.

Gained 22 Points in 22 Minutes.
In the 22 minutes, with the score 7-0 for the Pikeaway, Conzelman entered the game for the first time, starting for the second half. He emerged after about seven minutes of the fourth quarter had been played, about 22 minutes in all. When taken out the score was 29-4 for Washington and Conzelman had scored two touchdowns, made the third possible by forward passes, had kicked a field goal, gained 120 yards running back kicks and returned one punt 65 yards for a touchdown.

Problem of How to Stop Washington's Crack Open Field Runner Must Be Solved if Tigers' Hope to Win Today—Each Team Will Be Minus Backfield Star.

By John E. Wray.

A VARIATION of the old problem, the irresistible force pitted against an impenetrable mass, will be worked out on Washington University field today, when the Tiger and the Pike engage in their annual gridiron clash.

The Pikers will bring into discussion not an irresistible attack, it is true, but a strong and variegated one; while the Tigers will oppose to it a defense that has been broken through, but which is still almost airtight, among the teams of its own class.

Washington is by no means weak on defense, nor is Missouri lacking in scoring power, so long as Lewis' toe is in the game, at any rate; but the outstanding specialties of the two elevens, as shown by their season performance, is their contrasting prowess on the offensive and the defensive, as noted.

Washington and Missouri each will enter the fray limping, Stankowski the Tiger quarterback, being out for Missouri, and Berger, Washington's second-best ground gainer and last year's captain, being on the absentee list from an injury. Neither team is hopelessly discouraged by its loss, although Washington will be seriously handicapped to find a player to accomplish half as much as Berger customarily delivers.

On the whole, neither eleven can complain, and the football played will probably be the very best in the trick box of either. The winner? Ah, yes—well, our pick is Jimmy Conzelman. Missouri does not seem to have a man to match him.

Conzelman Ranks High.
Conzelman is not the whole Washington team, by any means; but he is the most colorful object on the field, and unless something happens to him, his name, owing to the nature of his services, will probably be more frequently in the mouths of the spectators than that of any other player.

This is a star of first magnitude. Old Grads, who went to sneer, came away glowing with enthusiasm after viewing his performance.

The game today may do something for Conzelman—clinch his title to the mythical quarterback berth on the All-Valley Conference eleven.

Missouri, however, will try hard to keep Conzelman down. The Washington at Columbia for some time has been "Stop Conzelman and the Valley title belongs to the Tigers."

And Conzelman may be stopped. This can happen in several ways. Tiger punters may spoil his remarkable record for running back kicks by punting out of bounds, instead of down field. The superior Missouri end may get down field in time to stop his dashes from the kickoff. The stronger Missouri line may crash through and break up his forward passing and kicking game.

Against Tigers

Princeton's Fine Show-
Old Eli Supporters Are
Very Confident.

WILL VIEW GAME

Them Will Be Mrs. Callahan
Whose Two Sons Will
Be Rival Centers.

HEAVEN, Conn., Nov. 15.—
Princeton clash this afternoon
one of the great gridiron
of the season. After the
lapse in football contests
caliber, interest in the game
eased with all its old-time
as a crowd of more than
persons was expected to pack
the field when the whistle
blows at 2 o'clock. The last battle
of the Bulldogs and the Tigers
was in 1916, when the Blue was victo-
rious 10 to 0.

The splendid showing of
Orange and Black against Har-
vard last week, and the ordinary
of Yale in its early season
the supporters of Old Eli
giving odds of 5 to 4 in the
betting. Confidence was high
Yale camp. Yale outweighs
on an average of two or
three to the man.

Perfect Weather Predicted.
Al Sharpe's squad spent the
day at the Yale infirmary, far from
the campus. Coach
Sharpe's 26 warriors stopped at
the infirmary overnight.

Early weather outlook was for
a football day, with enough
sun to make the lot of the spec-
tator a memorable one. The play-
ing was slightly soggy because
of rains of the past few days.
The human interest features
of the game is the playing of two
against each other in the
position. Capt. "Tim" Callahan,
center, has as his opponent his
brother, "Mike," the Princeton pivot.
Callahan, mother of the two
came from her home in Law-
rence, Mass., to see her sons in bat-
tle. Her seat was in the Yale section.
Probable lineup:

BURG'S CANTAIN IS
UNABLE TO PLAY IN
GAME WITH PENN TODAY

PHILADELPHIA, Nov. 15.—Pitts-
burgh and Pennsylvania met at Frank-
lin today in their annual foot-
ball game. It was considered one
of the biggest games of the local sea-
son. Virtually every grand stand
had been sold several hours be-
fore the contest started.
Glenn Warner announced
because of injuries Capt. de Hart
is unable to play and that he
will use McCracken at right
place of Ewing, who also is
injured. The lineup:

Pittsburgh. Positions. Left end.....Lockett
Left tackle.....Hanna
Left guard.....Mearns
Center.....Gibbs
Right guard.....McLean
Right tackle.....Bond
Right end.....McCracken
Quarterback.....Morrow
Left halfback.....Davies
Right halfback.....Lousharen
Fullback.....Hastings

Harley Spencer High Gun.

SPAS CITY, Mo., Nov. 15.—G.
Kroner, Diller, Neb., with 12
amateur field in the first day
of fall trap shooting carnival
yesterday. First place among
professionals went to C. G. Speer,
Louis. Other high amateurs
were William Wetzel, Nichols,
and F. H. Shoreman, Salt Lake
City, Utah, 178.

INDIVIDUALITY
IS KEYNOTE OF
SOCIETY WOMAN'S
SUCCESS.

By JANE WYNNE.

NEW YORK, Nov. 15. **M**LADY of the smart set has about these days with very serious men and often with serious women. For the coming week there is the view of the Prince of Wales, which, of course, is the thing of importance; quite a score of important affairs and informal parties to start off the season; the opening of the opera and then the horse show.

Really, the life of the society woman is becoming a busy one indeed and her duties quite rival those of her busy financier husband. Not only are there the affairs, but more important still are the details of the day's toilette. The smart women are wearing more and more that even the most attractive personality is enhanced by a stunning toilette and individuality is the keynote to success. Of course, means that she must have her own personality and moods expressed through her clothes, jewels and other personal belongings. This all takes time, and the valuable time which must be given over to these most important details either at home or at the shops.

The exclusive shops are so rushed with orders for the coming week that they are quite beside themselves. The designer of a Fifth Avenue shop told me recently that six pages of her large order book was filled in a single day and that the designer of the really looks as though a new set of adjectives will have to be invented to express the beauty of the stunning things that are being produced. The more I see them the more I see the futility of trying to describe them.

MRS. PAUL FITZSIMONS, formerly Mrs. French Vanderbil, is installed back in town after a very busy season at Newport. She was a member of a dinner party at the Ritz the other night, wearing a black evening gown of chiffon, made without a train with paniers of black silk with gold brocade flowers. Her sister, Lady Chelys, who just arrived from England on the Baltic, appeared in an evening gown of mauve satin with black and white short chiffon sleeves. A fragile scarf train descended from the waist and the corsage was outlined with odd black and white beads and pearl necklaces. Her only ornament was a diamond brooch.

Mrs. William Thaw III was wearing in an evening gown of gray panne velvet, with touches of chiffon at the shoulders and a panel back and the corsage was bordered with very unusual red beads that hung on either side ending in tassels of the beads. Mrs. Frederick Kohl of San Francisco wore a gown of dark green velvet. Although at first glance I thought it was black. The only trimming was a wide white shoulder strap of brilliant, one row of which extended down the bodice and across the back. It made a wonderful contrast with her mass of blond hair, and several declared her to be the handsomest woman in the dining room. Her necklace of diamonds was very beautiful.

MRS. IRENE CASTLE TREMAIN with her hair again bobbed, and herself completely hidden under a white ermine coat, passed hurriedly through the Ritz-Carlton lobby to dinner appearing very youthful. Shortly afterwards the great French dancer in the world as far as men go, attracted a lot of attention with his beautiful face and fluffy brown curls that looked as if they were dangerous to brush and comb. The wife was with him in a pale green evening gown, that showed plainly it came from a foreign shop. It was rather fussier than we are apt to wear at home. She and her husband arrived from France last week, and their most difficult task was to master English which they have not yet learned.

Society was very disappointed that Mr. Duke and Duchess of Sutherland sailed away so soon. They were so attractive and democratic, and many a hostess was eager to entertain them, but they made only one appearance in public. They were the guests of Mrs. Whitelaw Reid at her town house in Madison avenue.

Glycerine Useful in
Curing Chapped Hands

CHAPPED hands or finger cracks occur commonly in winter and spring during the prevalence of cold, dry winds. They are likely to appear above the top of the thumb or knuckles, but may come in any of the fingers with painful regularity with the approach of cold weather. A drop or two of glycerine rubbed over the hands after washing will prevent cracks forming. Applying a pumice stone to the thickened skin of the finger will reduce its thickness and prevent cracking. Wearing a rubber cap on the affected part while at work is beneficial. The hands should not be washed more frequently than is absolutely necessary. Cold water and soap containing much free alkali should be avoided. The skin should be thoroughly dried with a soft towel, and evaporation of water upon it tends both to produce and to aggravate cracking.

"How do you know that he's a millionaire?"—Buffalo Express.

"Miss Nina Wilcox Putnam" Is Satisfied to Have
Husband Sanderson Reside Under Separate RoofThe Model 1919 Marriage;
Bride and Groom to Live
Apart in Different Towns

"Miss" Nina Wilcox Putnam (Mrs. Robert J. Sanderson) Will Retain Home in Madison, Conn.; Satisfied to Have Hubby Live in Bridgeport; Both Will Share New York Apartment for Week-Ends; Financial Affairs on a Fifty-Fifty Basis; Did Not Marry to Be His Cook, Nor He to Be Her Furnace Tender.

By Marguerite Moores Marshall.

THIS is a story of the newest 1919 model marriage. The bride with the curious mixture of wife of Robert J. Sanderson, district manager for the Southern New England Telephone Co.

The two of them will live under separate roofs, not even in the same town, and will visit each other or run away together for week-ends.

The bride will not call herself "Mrs. Sanderson," but "Miss Nina Wilcox Putnam," although Putnam was the name of her late husband, Robert Faulkner Putnam, a member of the well-known publishing firm.

Each will wear a wedding ring. The sole reason for their marriage and its only significance is old-fashioned, romantic love.

"I believe in monogamy," this bride with the curious mixture of new and old ideals asserted. "It ought not to be called a failure, for the simple reason that it has never been tried—by society as a whole. I mean, on the one hand, there have been all the evasions, the hypocritical arrangements tolerated by a professedly moral and monogamous civilization. On the other hand, the monogamous union of one man and one woman has been linked up with so many irrelevant conditions—the joint household, the woman's skill as a cook, her dependence on the man as a breadwinner. All such details are just amendments, often mischievous, tacked on the treaty of love and loyalty, which is all marriage should mean."

"I'm sure you didn't marry me, because you wanted a housekeeper," she added, turning with a smile in her dark eyes and a caressing movement of her plump, white hand toward Mr. Sanderson, who sat behind her at a breakfast table in the New York hotel where he and his bride were finishing their four-day honeymoon. "And I know," continued Putnam, "to conform to her married nomenclature, 'that I didn't marry you because I wanted a man around the house to take care of the furnace.'"

Mr. Sanderson smiled quietly, quizzically, and returned the affectionate glance with compound interest. He is an unusually tall and lean young man, with a pleasantly weathered face and a shrewd, blue eyes.

He had already observed that he was going to be deaf, dumb and blind during the interview—a quite blind during the interview—for a normal male in the circumstances—but at this point he slid his long, brown fingers over his wife's and remarked sweetly but firmly, "This matter of our having separate roofs is not final. In the future we are likely to change our arrangements, as I'm going to remind Mrs. Sanderson—for I shall call her that if nobody else does."

"I admit it," promptly and doctically responded the author of that "You Me," and of other delightful going in for the best business. I have my country home in Madison, Conn., and Mr. Sanderson lives in Bridgeport. His business demands that he travel a great deal, and I need a certain amount of solitude for my work. When I feel a story coming I want to write it instead of pouring the coffee at breakfast. We shall keep an apartment in New York which we shall share for our week-ends and share the fun instead of our dry-dry."

"As a matter of fact," Mr. Sanderson quietly intervened again, although his wife shook her head at him and tried not to blush. "I have to keep after her to make her do the housework."

"Sometimes one of us may be 'broke' and sometimes the other. But in the end it will work out into equality and a joint sharing of expenses."

"Which doesn't mean"—once more Mr. Sanderson firmly manifested his presence—"that when I buy her a bunch of violets I shall charge it up to the joint accounts!"

Then he was called away to the telephone. During his absence his wife explained the Putnam-Sanderson platform on the question of her name and their wedding rings.

"It was Mr. Sanderson's own idea that we should each wear a ring," she said. "He told me he didn't think it was fair to ask me to wear one unless he did, too. That seemed to me very fine of him, so we were married with the double-ring service and we each have a gold band."

"As for my name, it is the one under which I have written for years, and I am going to keep it, although it did belong to my first husband. Naturally, Mr. Sanderson doesn't exactly like the idea, but we have talked it over and decided there is nothing else for me to do. A woman writer of my acquaintance, married for the second time, told me that she has cost her at least \$2000 to make her new name as valuable, professionally, as her previous one. Where I made my mistake was in writing

under my first husband's name, instead of my name before I was married at all. However, I shall be 'Miss' Nina Wilcox Putnam. I don't see why married women any more than married men should be singled out and branded with a special title. One's sex status is one's own affair."

"Then if marriage doesn't mean to you support, or housekeeping for your husband, or even 'Mrs.' what does it mean?" I asked. In her answer Nina Wilcox Putnam voiced the faith which many other modern women besides myself share with her.

"Marriage means love, romantic love, founded on trust and managed with intelligence. Marriage means that I enjoy being with my husband more than any one else in the world, and that I am resolved not to rub off the bloom from our romance by making it too commonplace and everyday. Of course, I believe in marriage. And I am so tired of these women who make an alibi for their own unhappiness, their own mistakes, by holding up marriage as a failure!"

The Weekly
Health TalkBy DR. G. A. JORDAN,
Assistant City Health Commissioner.

SKIM milk is the milk which remains after the butter fat, or cream, has been removed. It is still a valuable food, although it has lost the fat of whole milk. The quality of skim milk varies with the way the cream has been separated from it. Little or no fat being left when the separation is done by machine, but some fat is always left where hand skimming is employed.

Skim milk sells for just half the price of whole milk and has only lost its fat. Even after the milk is skimmed the solids and other nutrient-giving properties are still present in nearly the same proportion as in whole milk. In an ordinary mixed diet a sufficient amount of fat is supplied by meat, butter and lard so that the loss of the fat in the milk is of little importance.

Protein is one of the costly food ingredients and the one most likely to be lacking in inexpensive meals, but this important nutrient skim milk supplies in a cheap and useful form. The value of skim milk is not generally appreciated. It is not as rich in flavor as whole milk, but when taken into bread or used in cooking it forms a very valuable addition to the diet. Milk soups give an excellent means of increasing the food value of a meal. Sometimes soups are combined with left-over soup stocks, or mixed with the pulp of vegetables, such as tomatoes, celery, peas, corn and beans. Milk "cream" or white sauces are valuable for the nutritive material supplied as well as for the use of left-overs. Then comes the long list of puddings, breads, biscuits, griddle cakes and cocoa, which may be made with skim milk. Almost all these dishes, if carefully prepared, are nutritious, easily digested and economical.

Activities of Women.

Mrs. Robert H. Elder will undertake the task of training women aviators to be attached to the women police reserves in New York City.

Women industrial workers in Michigan are paid the same rate of pay as men where they do the same work.

Japanese girls in Honolulu have been granted an increase of 50 cents an hour, making their pay \$1.50 an hour.

Miss Melyne McKenzie, Nova Scotia's first woman lawyer, made her first appearance in court recently and won her first case.

Since Jan. 1, the number of women employed by the railroads of the United States, has been reduced from 100,000 to 75,000.

Mrs. Thomas Hervey of Norwood, O., who is now past 100 years of age, attributes her long life to having adhered to regular habits of daily life.

The Curious Quest

By E. Phillips Oppenheim.

CHAPTER XIX (Continued). THEY reached Newmarket at 1 o'clock in the morning. Bliss slackened down with a sigh of relief. It had been a long day for him and the car was not an easy one to drive.

"This is Newmarket, ma'am," he announced.

"Go on to Swaffham," she ordered. The night was grey-black, with tangled masses of vaporous clouds spread like a network across the lowering sky. Every now and then, during the last two hours, a drizzling rain had fallen and in places the road was soft. Swaffham was 22 miles further on and Bliss was by no means sure of the way. He sank a little further back in his seat.

"To Swaffham, madam? Certainly."

For the first time the woman turned her head and looked at him. "Do you think you can keep awake so long?"

"I hope so," Bliss answered. "For both our sakes, it would be as well." "Have you enough petrol and oil left?"

"Just about."

They went on for a mile or two in silence. Then she turned once more towards him.

"Couldn't you go faster?" she demanded impatiently.

"I could," Bliss admitted, "but I don't intend to. It wouldn't be safe on these roads."

"Never mind whether it is safe or not," she retorted. "I insist upon it that you drive faster."

Bliss made no reply. They had passed the outskirts of Newmarket now, and were plunging once more into the dark world.

"Did you hear me?" she asked imperiously.

Bliss' eyes were fixed on the road ahead.

"I am driving quite as fast as is safe," he told her, "and I should be very much obliged if you would not talk to me. I have the car and my own safety to think of and it is as much as I can do to keep her on the road."

"Stop at once," she ordered. Without undue haste he obeyed. She raised her veil and sat up in her seat, leaning a little towards him. Her face, unnaturally pale though she seemed in the ghostly light, still surprised him. She was good looking, even handsome, notwithstanding the discontented turn of the lips. She looked at Bliss steadily.

"How long have you been a chauffeur?" she inquired.

"In my present situation," Bliss replied, "from the moment you saw me enter the garage."

"The 'Sun' people engaged you, then, just to drive me?"

"Precisely," Bliss agreed. "I have been in their employ before, however, but I did not give satisfaction."

"What were you dismissed for, Bad manners?"

"Bad judgment."

"You have plenty of both, no doubt," she observed. "You can go on now. I wanted to have a look at you. You are the first man who has spoken to me like that for a long time. Start up, please. If it interests you to know it, we are not going to Swaffham at all. We are, in fact, very near the end of our journey."

Bliss obeyed without another word. Presently they climbed on to a long plateau, across which the road stretched in a perfectly straight line. The country was wild and open, mostly heath, but in one spot on the right, which they were rapidly approaching, it was black with trees.

Bliss obeyed without another word. Presently they climbed on to a long plateau, across which the road stretched in a perfectly straight line. The country was wild and open, mostly heath, but in one spot on the right, which they were rapidly approaching, it was black with trees.

"Slow down," she ordered. Bliss obeyed.

"Now stop."

Bliss brought the car to a standstill within a few feet of the place which she had indicated. The young lady rose to her feet.

"You will wait for me here," she directed.

Bliss looked at her in some surprise. On the left-hand side of the road were rolling columns of grey, phantasmalike mist; on the other, the impenetrable blackness of the clustering trees. There was no sign of any human habitation. The woman, in fact, seemed to take a couple of steps and be swallowed up in the darkness. Suddenly, however, from the spot where she had vanished, he heard the soft opening of a gate, heard the latch lifted by cautious fingers. He realized that somewhere back amongst the belt of trees was a house. He stopped his engine and leaned back against the cushions of the car. His lights were burning, and he was on his proper side of the road. Such curiosity as he felt became subordinate to an intense sleepiness. His eyelids were hot. The faint sighing of the wind lulled his tired senses, and in a few minutes he was asleep.

DR. JAMES E. TALMAGE
Among the prospective attendees on the forthcoming sessions of the American Mining Congress, to be held in this city next week, is Dr. James E. Talmage of Salt Lake City, Utah. Prior to the beginning of the meeting, the Congress, Dr. Talmage will speak under the title "From God to Man." This address is being delivered at the University of Utah, at the Mormon Church, 5190 Maule Ave.

Dr. Talmage is one of the preeminent authorities of the Church of Jesus Christ Latter-Day Saints, commonly called the Mormon Church, and has been heard in this city on several earlier occasions. He is well known from his writings on scientific and theological subjects, and is the author of many books, the latest of which is "The Vitality of Mormonism."

Dr. Talmage is an able exponent of the Scriptures and is intensely interested in the preaching of the Gospel, believing that the salvation of the human family depends upon obedience to God's laws as taught in Holy Writ, and that men should be prepared to meet their God. That men should be saved only by obedience to the laws and ordinances of the Gospel. He is a life Fellow of the Royal Society of Edinburgh, a distinction held by comparatively few in this country, and he is also a member of many other scientific bodies, both in America and Europe.

At the Mormon Church, 5190 Maule Ave., he will be free, as is the custom in "Mormon" assemblies, and his lectures or other appeals for contributions will be given at 10 a. m., 2:30 p. m. and 7:30 p. m. Tickets for the evening lecture are 50c. All are welcome.

CHRISTIAN SCIENCE
Subject of the lesson sermon at each church: "MORRILL AND IMMORTALITY."

Golden Text: John 8:34-35.
FIRST CHURCH, King's highway and Westminster place, 11 a. m. and 8 p. m. Reading room, 409 D. Street, boulevard, open daily from 9 a. m. to 9 p. m. on Sunday from 10 a. m. to 5 p. m.

SECOND CHURCH, 4234 Washington boulevard, 11 a. m. and 8 p. m.

THIRD CHURCH, 3524 Russell avenue, 10:45 a. m. and 8 p. m.

FIFTH CHURCH, 5009 Page boulevard, 11 a. m. and 8 p. m. Reading room, 409 D. Street, boulevard, open daily from 9 a. m. to 9 p. m. on Sunday from 10 a. m. to 5 p. m.

SIXTH CHURCH, Knapwren Hall, 3123 South Grove, 11 a. m. and 8 p. m. Reading room, same location, open daily from 9 a. m. to 9 p. m. on Sunday from 10 a. m. to 5 p. m.

SEVENTH CHURCH, Mount Moriah Temple, 602 West and Natural bridges avenue, 10:45 a. m.

WEDNESDAY EVENING TESTIMONY MEETING at all of the churches.

DOWNTOWN READING ROOM, 1009 West and Natural bridges avenue. Open daily except Sunday and holidays. All are welcome.

Second Presbyterian Church
Westminster Place at Taylor Avenue.
John W. MacIvor, Minister

Will preach, 11 A. M.:
"The Kingdom in St. Louis"

8 P. M.:
"A Waiting World"

Strangers welcome to all services.

Five Points of Unitarianism.

1. The Fatherhood of God.
Church of the Messiah, Union and Enright, Sunday evening at eight. J. W. Day, pastor.

DIVINE SCIENCE CHURCH
3617-19 Wyoming Street.
REV. R. H. SCHROEDER, Pastor.

Rev. August J. Gier of Los Angeles, Cal., will speak at 10:45 a. m. Subject: "Reconstruction of the World Through the Individual." At 2 p. m. Subject: "The Spirit of Uplift." Next Tuesday evening at 8 o'clock, Subject: "How to Transmute the World of Sorrow Into Joy." All are welcome.

St. Peter's Episcopal Church
Lindell St. and Spring St.
Rev. D. D. Redder, Holy Communion, 7:30; Sunday School, 9:30; Rector's Bible Class, 9:45. Morning service and sermon by the Rector, 11. Evening and address, 8:30.

TEMPLE ISRAEL
Sunday morning service at 11. Rabbi Louis H. Teitelbaum will speak. Subject: "THE SPIRIT OF UPLIFT." All interested are cordially invited.

Kill the Cold and You
PREVENT THE FLU

Colds—and coughing, sneezing people—do more to increase Flu epidemics than anything else.

Colds are the best breeders of Influenza—Coughers and sneezers spread it.

People who keep free from colds rarely become victims of the Flu or similar diseases.

A sound body has too much resistance

MORE TRUTH THAN POETRY
By James J. Montague.

THE TURK AND THE SERVANT PROBLEM.
In the far away town of Stamboul,
Where the popular customs are strange,
When a well-to-do Turk needs a lady to work
At his washstand or over his range,
He hurries her straight to the mosque,
Where he joyfully takes her as wife
And she cooks his ragouts and Pilaffs and beef stews
For the rest of her natural life.

In case any richer Pasha
Endeavors to lure her away
(As sometimes it's true they are willing to do)
With offers of much bigger pay,
Her husband appeals to the law
Which sternly refuses to brook
Any stealthy attempt (Great Pashas not except)
To steal a connubial cook.

And if the young woman herself,
Another employment should seek
With some opulent Turk who will give her less work
And more evenings off every week,
Her husband will take her to court,
Where the Ottoman statutes are read
Which set forth, to-wit: "If a cook tries to quit
Her husband may chop off her head."

We never were strong for the Turk,
He's a rough and cantankerous cuss,
But in some things he's got, we will own, quite a lot
On civilized people like us.

WHEN THE REDS GET THERE.
There is little color in prison life,
But that promises to be changed for the better soon.

LOST ARTS.
Wining, dining and mining.
(Copyright, 1919.)

BEATING HIM TO IT.
The Prince of Wales will limit his stay in the United States to 10 days. The King of the Belgians played all the best territory.

Hobbled.
Mrs. Nextdoor: How do you manage to keep your cook so long?
You've had her two weeks?
Mrs. Skeamer: I gave her some of those stylish narrow skirts to wear in the kitchen and she won't be able to walk a block from the house till they're worn out.—Dallas News.

The Essential.
"I wonder will Smithers always allude to his wife so lovingly as 'my own'?"
"Well, she is his own. Everything else in his home he is paying for on the installment plan."—Pearson's Weekly.

Cause Enough.
Caller (whispering): What makes your husband look so pale and nervous?
Mrs. Dibbs: Just before you came we drew lots to see who'd fire the cook, and I won.—Buffalo Express.

A strike is not a "brake on industry." It's a displaced switch.—Wall Street Journal.

"SAY, POP!"—ONE BITE MEANS ALL, ACCORDING TO ALKALI IKE—By C. M. PAYNE

MUTT AND JEFF—WHEN MUTT'S SERIOUS, JEFF ASSUMES A JOKING MOOD—By BUD FISHER

The Usual Comment.

In an infant school the teacher chose the miracle of the water being turned into wine as the subject of the usual Bible lesson.
In telling the story she occasionally asked a few questions. One of them was:
"When the new wine was brought to the governor of the feast what did he say?"
A little girl, remembering what she had heard, probably on some festive occasion, called out:
"Here's luck!"—Cleveland News-Leader.

Ambiguous.

Walter: The guy who ordered that lobster Newburg complains that you put no sherry in it.
Chef (haughtily): Tell him that I never forget myself!—Buffalo Express.

His Choice.

"Any particular choice of cut?" asked the butcher.
"Yes," replied the customer. "I'd like a cut of about 50 per cent in price."—Boston Transcript.

Not Well Done.

Church: I saw a very rare bird to-day.
Gotham: In an aviary?
No; in a restaurant.—Yonkers Statesman.

YOU CAN'T WORK WELL WITH A COLD

Relieve it with Dr. Bell's Pine-Tar-Honey.

NOBODY likes to be around a person suffering from a heavy cold. It exposes them needlessly. You can take care of your job and keep business and social engagements shortly after you begin using Dr. Bell's Pine-Tar-Honey. For it is prompt in helping Nature expel phlegm, allay inflammation, ease breathing, and driving away irritating coughs. Use it—give it to the kiddies. Don't suffer a minute longer than you have to. The ingredients used in Dr. Bell's Pine-Tar-Honey are highly beneficial in promoting the relief cold-sufferers seek. Safe and economical. At all druggists. 30c, 60c, \$1.20.

Dr. Bell's Pine-Tar-Honey
for Coughs and Colds

Cost of Living Item.

A prominent banker and commission house partner in discussing the high cost of living yesterday said that for several years he had been giving investment advice to a friend who is in the egg business. Despite the fact that the egg merchant kept a good sized amount invested in securities in the banker's firm the latter presumed that amount to be about the extent of his wealth. A few weeks ago the egg merchant confided that he wanted to quit business and was advised by the banker to put his money into Government bonds.
"What will it total?" asked the banker.
"Oh, about \$1,500,000 I guess," was the nonchalant reply.
"Did you make all this on eggs?" he was asked.
"Yes, every dollar on eggs."
"How did you do it?"
"Simplest thing in the world," was the answer. "I bought eggs when nobody wanted 'em, and when they were cheap, put them in cold storage and waited until I got my price."—New York Sun.

Exemplary.

Customer: But is he a good bird?
I mean, I hope he doesn't use dreadful language.
Dealer: 'E's a saint, lady. Sings 'ym beautiful. I 'ad some parrots wot used to swear something awful, but if you'll believe me, this 'ere bird converted the lot.—London Tit-Bits.

A Suggestion.

"Would it be all right to beat a grass rug?"
"I don't know, my dear. Perhaps I'd better just run the lawn mower over it."—Louisville Courier-Journal.

The Start.

Hoyle: I am writing a moving picture scenario.
Doyle: How far have you progressed?
Hoyle: Well, I have begun with the line at the end.—Cartoons Magazine.

A Temporary Expedient.

"What shall we do to remedy the high cost of living?"
"I'll see if I can't get a job to assist in investigating it. Maybe the salary will be enough to help tide us over."—Washington Star.

And You Never Can.

"Queer thing about religion."
"What is it?"
"You never can tell what church the man goes to by the way he is down on week days."—Detroit Free Press.

PURE AND DELICIOUS BAKER'S COCOA

Is a most satisfactory beverage. Fine flavor and aroma and it is healthful.

Well made cocoa contains nothing that is harmful and much that is beneficial.

It is practically all nutrition.
